# CLEAN WATER STATE REVOLVING FUND INTENDED USE PLAN (IUP) APPLICATION INSTRUCTIONS

## ITEMS 1 – 11: Wastewater Construction Permitting

The Clean Water SRF Intended Use Plan Application will only be accepted when Items 1 through 11 have been completed through the Wastewater Construction Permitting Process of the DNR Wastewater Engineering Section. Please refer to the [Wastewater Permitting Process Manual](#) for detailed information on these steps.

1. Applicant Name: Enter the name of the applicant who is requesting SRF funding.
2. DNR Number (e.g. W2014-#### or S2014-####): All wastewater construction projects are assigned unique numbers for tracking by DNR. A number beginning with W and the fiscal year indicates a Work Record. A number beginning with S and the fiscal year indicates a Project.
3. DNR Project Manager Name: A project manager from the DNR Wastewater Engineering Section is assigned to each project.
4. Project Name/Identification: A brief title/description of the project from Design Schedule A, General Information. The project description must fall under the project scope established at the project initiation meeting. An accurate description is necessary because multiple construction contracts may have the same project numbers.
5. Project Initiation Meeting Held (date): A project initiation meeting must be held with the DNR, Owner, Consulting engineer (licensed professional engineer), and other parties.
6. Flows and Loads Concurrence by DNR (date): If flows and loadings will change due to the project, the DNR Project Manager must concur with the proposed design flows and loadings prior to preparing the Facility Plan. If answer is n/a, state the reason. Example: *previously approved flows and loadings remain unchanged*.
7. Wasteload Allocation Completed (WLA) (date): If a Wasteload Allocation is required for the project, it must be completed by the DNR and received by the Owner before preparing the Facility Plan. Enter "N/A" if WLA is not required for the project.
8. Antidegradation Alternatives Analysis (AAA) Approved by DNR (date): If an antidegradation alternatives analysis is required for the project, it must be approved by the DNR Project Manager before the Owner prepares the Facility Plan. Enter date of DNR approval of the AAA. If a Facility Plan is submitted prior to DNR approval of Antidegradation Alternatives Analysis, it will not be accepted for review. Enter "N/A" if AAA is not required for the project.
9. Facility Plan Submitted with IUP Application: After completing all applicable planning steps as discussed above, the Facility Plan may be submitted to DNR. Answer "Yes" if a Facility Plan is submitted along with the IUP application:
  - a. If a Facility Plan was previously submitted, enter the date submitted.
  - b. If the Facility Plan was previously submitted, enter the date of certification by a licensed professional engineer.

Facility Plan submissions shall follow Chapter 11 of the Iowa Wastewater Facilities Design Standards. All engineering submittals shall follow all applicable law and rule related to submitting engineering documents by licensed professional engineers. Electronic submittals are acceptable as long as they are in compliance with all applicable law, including but not limited to Iowa Code 542B and Iowa Administrative Code 193C.

10. Iowa Construction Permit Application Schedule A: Design Schedule A must be certified by both the Owner and the Consulting Engineer (licensed professional engineer). It is required and must be submitted for all wastewater projects. Schedule A must indicate that Clean Water SRF financing will be requested to be considered as part of this IUP application.
11. Schedules F and G (if needed for the project): Schedule G provides Wastewater Treatment Plant project design information and Schedule F provides site information for treatment process site selection. Enter "N/A" if these schedules are not needed for the project.

## Items 12- 16: Additional SRF Requirements for a Complete Application:

12. Socioeconomic Assessment Worksheet must be completed and included as an attachment with the IUP application. 13. IUP Application Signed: The Intended Use Plan application must be signed by the Applicant's authorized representative. Printed or electronic signatures are accepted.
14. UEI Number Included: The U.S. Federal Government has transitioned from using a Dun and Bradstreet Number (DUNS) to using a Unique Entity Identifier (UEI). Entity refers to prime contractors, organizations or individuals applying for assistance awards, those receiving loans, sole proprietors, corporations, partnerships, and any Federal Government agencies desiring to do business with the government.

**You can register your entity to obtain a Unique Entity ID here: <https://sam.gov/content/entity-registration>**

15. Property Assurance Form Signed: This form is required to be signed and dated regardless of whether or not the Applicant currently intends to purchase land using SRF funds.
16. SRF Environmental Review Checklist and Attachments Completed and Submitted: The ER checklist outlines the information needed to start the SRF ER Services. The environmental review checklist can be obtained here: [https://www.iowasrf.com/about\\_srf/srf-resources/](https://www.iowasrf.com/about_srf/srf-resources/)

# CLEAN WATER STATE REVOLVING FUND INTENDED USE PLAN (IUP) APPLICATION FORM

This form may be used to apply for inclusion on the project priority list (PPL) of the Clean Water SRF IUP after or concurrent to submitting the Facility Plan to DNR for approval. IUPs are developed on an annual basis with quarterly updates as needed.

\*This form is not an application for a loan. SRF loan application materials may be obtained at [www.iowaSRF.com](http://www.iowaSRF.com).
