	Land Application		Minor Conveyance				Major Conveyance			
	Non-SRF	SRF	Sanitary Sewer Extension		I/I - Repairs and Lining		Repairs and Rehabilitation		Main Sewers, Trunk Sewers, Interceptors	
		Non-SRF	SRF	Non-SRF	SRF	Non-SRF	SRF	Non-SRF	SRF	
Cover Letter										
Design Criteria Summary										
Flow & Load Report										
Wasteload Allocation Request										
Facility Plan										
Geotechnical Report ^A										
Site Survey										
Antidegradation Alternatives Analysis										
Preliminary Plans & Specifications										
Sewage Treatment Agreement										
Construction Permit Fee Form (with Fee)										
Final Plans & Specifications										
Addenda										
Change Orders										
O&M Manual										
Schedule A - General Information										
Schedule B - Collection System										
Schedule C - Lateral Sewer Extension										
Schedule D - Trunk and Interceptor Sewer										
Schedule E - Wastewater Pump Station										
Schedule F - Treatment Project Site Selection										
Schedule G - Treatment Project Design Data										
Schedule H1 - Schematic Flow Diagram										
Schedule H2 - Treatment Process Removal Efficiency										
Schedule H2 - Mechanical Plant Reliability										
Schedule I - Screening, Grit Removal and Flow Measurement										
Schedule J - Septic Tank System										
Schedule K1 - Controlled Discharge Pond										
Schedule K2 - Aerated Pond										
Schedule K3 - Anaerobic Lagoon										
Schedule L - Settling Tanks										
Schedule M - Fixed Film Reactor - Stationary Media										
Schedule N - Rotating Biological Contactor										
Schedule O - Aeration Tanks or Basins										
Schedule P - Gas Chlorination										
Schedule Q - Sludge Digestion and Holding										
Schedule R1 - Sludge Dewatering and Disposal										
Schedule R2a - Low Rate Land Application of Sludge Part I										
Schedule R2b - Low Rate Land Application of Sludge Part II										

^AGeotechnical Reports are required for all projects involving earthen basins

COLOR LEGEND

- Required - Submit in accordance with Iowa Administrative Code (IAC) and the Iowa Wastewater Facilities Design Standards (IWWFDS)
- As Required - Submit when applicable to the project per IAC or IWWFDS or when requested by DNR as part of the project review
- Recommended - Submit to streamline the review process
- Not Required - Submittal may not be required
