ASBESTOS NOTIFICATION OF DEMOLITION AND RENOVATION FORM

GENERAL INFORMATION

The Asbestos NESHAP, 40 CFR 61.145 and 567 IAC 23.1(3), requires written notification of demolition or renovation activities in facilities. In most cases, a facility includes all types of structures except single family homes and apartment buildings having no more than four units. The enclosed form must be used to fulfill this requirement. Only complete notification forms will be accepted.

The notification should be typewritten or neatly printed and postmarked or delivered no later than ten days prior to the beginning of either the asbestos removal activity (Section IV) or demolition activity (in Section V) whichever is applicable.

INSTRUCTIONS

- 1. Type of Notification:** Check "Original" if the notification is a first time or original notification, "Revised" if the notification is a revision of a prior notification, or "Canceled" if the activity has been canceled. Check "Annual" for projects in accordance with 40 CFR Part 61, Subpart M 61.145(a)(4)(iii).
- 2. Type of Operation:** Check as appropriate for facility abatement, demolition, renovation, ordered demolitions, or emergency renovations. A notification for renovation is required only if asbestos was removed or still present but not being disturbed. However, if asbestos has been or will be removed, then a separate abatement notification form should be submitted by the appropriate part.
- 3. Is Asbestos Present?** Answer "Yes," "No - Abatement has already occurred," or "No - Asbestos found is under NESHAP limits."
