

# Trees for Schools

## Instructions and Requirements

**INTENTION OF THE GRANT** - Through the USDA Forest Service & National Association of State Foresters (NASF) 2023 Inflation Reduction Act, the Iowa Department of Natural Resources (DNR) received funds for tree planting grants to schools. Trees for Schools grants are available to public and private schools and school districts to help increase and diversify tree canopy on school grounds, encouraging students to take an active part in this experience and increasing the benefits trees provide to students.

**ELIGIBILITY AND PROGRAM RESTRICTIONS** - Schools and school districts, both public and private, with 25% or higher free and reduced lunches and/or are eligible through the [Forest Canopy Socioeconomic Assessment Tool](#) may apply for Trees for Schools funding (**See Appendix A**). Funding is competitive, and grants are awarded **in amounts of up to \$5,000 per project**. No matching funds are required. Award money may be used to purchase trees, mulch, and supplemental watering cost when school is not in session (June - September). **Trees are to be 50% or more of the project cost.** Supplemental watering costs may also include water bags or tree diapers to aid in adequate watering. Supplies such as shovels, buckets, gloves, saws, as well as any costs associated with digging, site preparation, and other labor, are NOT covered by grant funding. Projects **MUST** take place on public or private school grounds. **Plantings on property other than public or private school grounds are NOT eligible for grant funding.**

**SUBMISSION OF APPLICATION** - Trees for Schools grant applications and supplemental materials may **ONLY** be submitted electronically. To be eligible for the grant, **all materials are due to the DNR program coordinator by 4 pm Friday March 22, 2024**. Applications received after this time will NOT be accepted; the DNR program coordinator reserves the right to disregard any application that is incomplete or which does not include ALL supplemental materials. If, for any reason, you are unable to complete all required materials by the application deadline, please contact the DNR program coordinator as soon as possible to discuss alternatives. **Please email applications and supplemental materials to [Chip.Murrow@dnr.iowa.gov](mailto:Chip.Murrow@dnr.iowa.gov).**

**APPLICATION SCORING** - Scoring will be based on the following with priority given to: (1) demonstrated need for trees, (2) cost-effectiveness, (3) student involvement, (4) species/genera diversity and environmental impact, (5) ongoing/future care, and (6) map of planting site (8.5" x 11").

\*A pre-application site visit is encouraged for all applicants. Please contact the DNR program coordinator to set up a site visit for your event.

**EDUCATIONAL REQUIREMENTS** - The purpose of the Trees for Schools program is to educate children, teenagers, and young adults about the importance of trees and their myriad benefits, as well as to offer hands-on planting and maintenance experience. To achieve these goals, the program requires youth involvement in planting, mulching, and initial watering for all projects receiving funding. A DNR-led demonstration on proper planting, mulching and watering is required at the beginning of each event, and/or for each group involved in the project; projects that incorporate multiple groups working independently of one another will require multiple demonstrations.

**\*\*PLEASE NOTE: TREES FOR SCHOOLS STRICTLY PROHIBITS THE USE OF AUGERS FOR DIGGING HOLES!\*\***

**PLANTING SCHEDULE AND MAKEUP DATE** - Applications **MUST** include specific date and time for tree planting, as well as an alternative date and time in case of postponement. **Planting days are to be scheduled no earlier than April 15 and no later than June 7**; requests that fall outside of this timeframe will NOT be approved. Because the Trees for Schools program is intended to provide positive experiences for the youth involved, weather events that may compromise such an outcome must be considered when discussing possible postponement. Rain, extreme wind, snow, or uncomfortably cold conditions are valid reasons to postpone an event. Postponement is at the discretion of the applicant; any event rescheduling, including weather-related postponement, **MUST** be communicated to the DNR program coordinator. **Failure to inform the DNR program coordinator of rescheduling or postponement may result in withholding of grant funding.**

**TREE REQUIREMENTS AND SPECIES DIVERSITY** (for species options, see list included in nursery letter) - Trees may be provided by nurseries in Iowa or from **boarding** state's nurseries. **Trees MUST meet the specifications set forth by the American Nursery Stock Standards (ANSI Z60.1)**. Please ensure that your nursery is aware of this, and encourage them to review the specifications detailed in the nursery letter. **Trees MUST be container-grown or bag grown**. Bare-root, balled-and-burlapped, field grown, and other non-containerized trees WILL NOT be reimbursed via grant funding and will be considered donations by the nursery. **Containers must be in the range of 5-gallon to 10-gallon, or root bag equivalent**; trees that are smaller than 5-gallon or larger than 10-gallon MUST receive approval from the DNR program coordinator.

In order to ensure species diversity and to protect against large-scale losses from future forest health threats, no more than three trees of any one species for projects of 30 or fewer trees, OR 10% of any one species for projects of 30 or more trees, will be allowed. No more than 20% of any one genera will be allowed for projects of ANY size. For example, a project with fifteen trees will allow no less than 5 species or genera in total, whereas a project with 50 trees will allow no more than 5 trees per species and no more than 10 trees per genera.

**MULCHING** - Mulching is required for every tree planted. The source and cost of mulch for your planting must be included in the application. If possible, you are strongly encouraged to take advantage of any mulch offered by your local community, as such mulch is typically free and comes from locally-removed trees. If purchasing mulch from a nursery, **please refrain from using cypress mulch or weed control mulch**. You are allowed to purchase up to two bags of mulch per tree.

**WATERING AND ONGOING CARE** - Trees for Schools projects are required to include initial watering of 5-10 gallons per tree, depending on container size. Ongoing watering is required during the growing season for at least the first two years after trees are planted. Applications MUST include a detailed description of who will be responsible for ongoing watering, both during the school year and supplemental watering during the summer (June - September), and how frequently they will do so. Grant funding can only be used for the first year of supplemental watering cost. This may include watering devices such as watering bags or tree diapers. It is highly recommended that projects DO NOT rely on grounds and maintenance crews for watering during the school year, as time limitations for these staff often results in watering being neglected. Instead, it is best to formulate a plan that uses youth or adult volunteers, on a rotating basis if necessary, to meet watering needs during the school year.

**AWARDED APPLICANTS** - Applicants awarded a Trees for School grant must sign a Grant Project Cooperative Agreement with the Iowa Department of Natural Resources which will be sent out with grant award letters. Applicants must also provide a current IRS Form W-9, Federal ID and proof of current SAM registration.

**REIMBURSEMENT PROCESS** - Expenditures must be made between April 15 and October 1, 2024 to qualify. Applicants may use funds to purchase plant materials, mulch, and watering services. Personnel funds will not be reimbursed. The grants are reimbursable and each grant will be paid pursuant to the provisions of a **Grant Project Cooperative Agreement** entered into between the grant recipient and DNR. Reimbursement will be paid on the basis of the approved percentage of all eligible expenditures up to the amount of the approved grant. To receive reimbursement, grantees must complete the project by the project completion date stated in the grant announcement, undergo project inspection by a DNR forester, and submit all required documentation including proof of payment. A partial reimbursement for planted trees and mulch may be made after completion of the planting. All final requests for reimbursement must be submitted and postmarked by **November 15, 2024**.

The DNR program coordinator will review the invoice and project report and upon approval, submit it to DNR accounting for reimbursement to the applicant. It may take up to 60 days from the time the DNR program coordinator submits the reimbursement materials for the applicant to receive payment. **NO reimbursement will be made** without Federal ID, W-9, SAM and project report sent to the DNR program coordinator.

**TREES FOR SCHOOL GRANTS** - Are federally funded through CFDA #10.727 from the US Department of Agriculture Forest Service as part of the Inflation Reduction Act. If your entity is required to have a single audit in accordance with OMB circular A-133, a copy of the audit report will be provided to the DNR if any findings noted are related to the award

provided by the DNR. If no findings relate to the DNR award, a notification letter will be provided to the DNR stating findings noted did not relate to the DNR award.

Applications must be submitted no later than 4:00pm on Friday, March 22, 2024. Applications must be submitted to: [Chip.Murrow@dnr.iowa.gov](mailto:Chip.Murrow@dnr.iowa.gov).

For questions or assistance, please contact Chip Murrow at (515) 822-1031 or [Chip.Murrow@dnr.iowa.gov](mailto:Chip.Murrow@dnr.iowa.gov).

## Spring 2024 APPLICATION

**Application Eligibility** - For schools to be eligible for the Trees for Schools grant, they must meet one of following requirement. Please mark all requirements the school meets (See Appendix A).

**25% or higher Free & Reduced Lunches**

[Forest Canopy Socioeconomic Assessment Tool](#)

### Applicant Information

School or School District \_\_\_\_\_

Primary Contact \_\_\_\_\_

Email \_\_\_\_\_ Phone \_\_\_\_\_

Mailing Address \_\_\_\_\_

City \_\_\_\_\_ County \_\_\_\_\_ State \_\_\_\_\_ Zip code \_\_\_\_\_

### Project Information (Please see "Instructions and Requirements" above)

Project Title \_\_\_\_\_ Funding Amount Requested \_\_\_\_\_

Project Supervisor (if different from above) \_\_\_\_\_

Email \_\_\_\_\_ Phone \_\_\_\_\_

Project Location/Address \_\_\_\_\_

City \_\_\_\_\_ County \_\_\_\_\_ State \_\_\_\_\_ Zip code \_\_\_\_\_

Planting Date/Time (be specific) \_\_\_\_\_ Makeup Date/Time \_\_\_\_\_

Planting Location Type  Public School  Private School

Number of Youth Involved \_\_\_\_\_ Number of Supervising Adults \_\_\_\_\_

### Nursery Information

Nursery Name \_\_\_\_\_

Primary Contact \_\_\_\_\_

City \_\_\_\_\_ Email \_\_\_\_\_ Phone \_\_\_\_\_

	Total Number/Quantity	Total Cost
Trees		
Mulch (number of bags)		
Watering Equipment (bags, diapers, other)		
Supplemental Watering (gal/tree & times/week)		
Total *(Trees must be more than 50% of cost.)		

**Project Narrative**

Please provide a sentence or two about your project.

**Need for Trees**

Please explain in detail the need for trees on your school grounds. (i.e. environmental impacts, educational uses)

**Student Involvement**

Please tell the role students will have on this project.

**Initial and Ongoing Care**

Please provide a detailed summary of care for the planted trees including mulching and how trees will be watered and maintained for AT LEAST two years after the trees are planted, including who will be responsible and how often duties will be performed.

## Supplemental Materials

### Please include the following supplemental materials:

- 1) "Nursery Notification Letter" document, signed and dated by participating nursery
- 2) Quote from participating nursery including ALL of the following:
  - Species common name and cultivar (if applicable)
  - Species scientific name
  - Quantity per species
  - Container size and type for each species (hard pot, air-pruned container or growbag)
  - Cost per tree and total cost, including mulch (if applicable)
  - Cost for supplemental watering including gal/tree & times/week (if applicable)
- 3) Map of planting site (8.5" x 11")

## Certification

- By checking this box, I hereby certify that, to the best of my knowledge, the information contained in this application and its supplements is correct and true. I acknowledge that I have read the "Instructions and Requirements" document and that any deviations from the specifications outlined have been approved by the DNR program coordinator. **I fully understand that any deviations from said restrictions that have NOT been expressly approved by the DNR program coordinator may result in withholding of funds by Iowa Department of Natural Resources.**
- By checking this box, I hereby certify that the project funds will be spent in accordance with all applicable federal and state laws, rules and regulations.
- By checking this box, I hereby certify that the Iowa Department of Natural Resources is released from any liability associated with this project.
- By checking this box, I acknowledge that the Grantee agrees to provide a two-year maintenance agreement, as described above, for all trees planted using funds from this grant.

Applicants applying for Trees for Schools grant must have a current SAM registration. Please provide your SAM registration number: \_\_\_\_\_

## Signatures

**Signature of Applicant:** \_\_\_\_\_ **Date:** \_\_\_\_\_

Signature and Title of Authorized Official of state, regional or local government under whose jurisdiction the project will occur (this is not required if the applicant has jurisdiction over the project site):

\_\_\_\_\_

**Signature of Landowner:** \_\_\_\_\_ **Date:** \_\_\_\_\_  
(if different from above applicant)
