Administrative Consent Order No. 2012-AFO-01 was entered into between the DNR and Cedar Valley Farms, LLC (Cedar Valley) on January 3, 2012. Following the issuance of the administrative consent order, the animal feeding operations at the Cedar Valley facility were changed and an amendment to the administrative consent order is warranted. The parties have agreed to the following changes:

1. Paragraph 22 is added to Section III. STATEMENT OF FACTS and read as follows:

22. On April 5, 2012, representatives from the DNR and Cedar Valley met to discuss the changes that had occurred at the facility. Cedar Valley informed the DNR that it had decided to discontinue all open feedlot operations at the facility. All remaining open lot animals will be removed to another feedlot approximately one mile away from the facility in the next few weeks. Cedar Valley intends on constructing new confinement buildings to house all animals at the facility and is in the process of finalizing the plans. Once the plans have been finalized, Cedar Valley intends to submit construction permit applications to the DNR. Cedar Valley also stated that it had begun emptying the open lot basin. Once the manure was removed, the basin would be scraped and would either be filled in or turned into a pond.

2. Section V. ORDER is amended to replace Paragraph 1 as follows:
 1. Cedar Valley shall cooperate with the DNR to seek obtain the proper construction permits for the new confinement buildings at the facility.
3. In all other respects, Administrative Consent Order No. 2012-A-01 remains in full force and effect.
