

# STATE OF IOWA

TERRY E. BRANSTAD, GOVERNOR  
KIM REYNOLDS, LT. GOVERNOR

DEPARTMENT OF NATURAL RESOURCES  
CHUCK GIPP, DIRECTOR

We will hold remover training on Friday, February 21 from 8:00 to 5:00 at Adventureland Inn, 3200 Adventureland Drive, Hwy I-80 (Exit 142A), Altoona, Iowa.

This course is offered to those who want to receive an UST remover license for the State of Iowa under Part C, 567—134.28 Iowa Administrative Code. The course is also offered to those individuals who are already licensed as Iowa Removers in the State of Iowa, but need credits toward fulfilling 12 credit hours of continuing education. An UST professional in Iowa must satisfactorily complete at least 12 credit hours of department-approved continuing education.

The UST Section acknowledges that Removers may not find the information they need at the Annual Refresher course, which leans heavily toward installations, inspections, testing, etc. Therefore, in order for Licensed Removers to complete the necessary credit hours and benefit from information that is your line of work, we invite you to sign up for the Remover Course and complete your 12 credit hours. Your experience will also be valuable to the class.

Please register by February 8, 2014. Use the attachment above or go to the DNR UST Professional Bulletin Board

(<http://www.iowadnr.gov/InsideDNR/RegulatoryLand/UndergroundStorageTanks/LicensedUSTProfessionals/USTProfBulletinBoard.aspx>) after January 22, 2014 to complete the registration.

**FOR REMOVER LICENSE APPLICANTS:** For those of you who are taking the course to become an Iowa Licensed Remover, the cost of the course is \$50.

**FOR LICENSED REMOVERS:** For those of you already Iowa Licensed Removers and you are taking the course to complete your credit hours, there is no charge and licensed removers will not have to complete the exam.

Complete the registration form, and submit the form along with your check for \$50 (applicants only) to:

Bonnie Garrison  
Iowa Dept of Natural Resources  
Underground Tank Section  
Wallace State Office Building  
502 E Ninth  
Des Moines, IA 50319-0034

**For Those Applying for an UST Remover License:** Please review the Underground Storage Tank Closure Guidance on our website before February 21st. A booklet will be provided to you at the course.

The remover exam is based on the closure guidance material. The exam is open book; you must receive a score of 85 percent or higher to pass the course. The API and NFPA references mentioned on page 5 of the manual are important safety and removal standards that should be a part of your reference material.

After successful completion of the February 21, 2014 course and exam, one may apply to become an Iowa-licensed UST remover. More information regarding this application form and fee will be available within the next two weeks.

On behalf of IPECA and DNR, we look forward to seeing you at the course!
