

**GRRWA Resolution #117**

**Resolution adopting and approving the Environmental Management System "Fence line"**

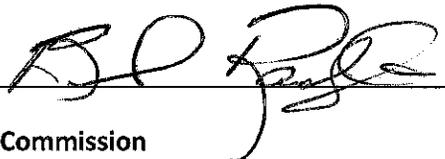

**BY The Commission**

**Whereas,** The Authority has approved to become an environmental management system and was accepted by the Iowa Department of Natural Resources and the E.M.S. board.

**Whereas,** The Authority has approved and adopted the below fence line.

**Now Therefore be it Hereby resolved By The Waste Commission That:** The Environmental Management System's Fence line for Great River Regional Waste Authority will include the Great River Regional Waste Authority Landfill facility in Fort Madison Iowa and the Great River Regional Waste Authority's transfer station in Keokuk Iowa as well as services and programs provided to the Great River Regional Waste Authority's planning area which include: The City of Hillsboro and the unincorporated area in Henry County; All cities and the unincorporated area in Lee County; and all cities and the unincorporated area of Van Buren county.

Now, therefore, upon the motion of Susan Dunek member of the commission, seconded by Gary Adam.

## **Environmental Policy Statement**

**Great River Regional Waste Authority** is dedicated to excellence by providing superior customer satisfaction without sacrificing the safety of our employees or our community. Great River Regional Waste Authority strives to be the best stewards of the environment by meeting and exceeding our goals and expectations. Great River Regional Waste Authority will reduce our environmental footprint for our future generations by focusing on these 7 categories:

- 1) Yard waste management**
- 2) Household hazardous waste Management**
- 3) Water Quality improvement**
- 4) Greenhouse gas reduction**
- 5) Recycling services**
- 6) Environmental Education**
- 7) Community and employee safety**

We will measure and review our programs annually and periodically report the results to our stake holders.
