

## Stewardship Action Council

Formed following the suspension of the US Environmental Protection Agency's Performance Track Program, the Stewardship Action Council (SAC) is a national nonprofit created from the desire of representatives of both the public and private sectors to foster cooperative partnerships that drive sustainable and socially responsible business practices that exceed normal compliance results.

The mission and goals of the SAC include:

To raise the level of social, environmental, and economic performance through shared responsibility and collaboration among business, non-governmental, academic, and government organizations.

- Creating and fostering a learning network
- Creating collaborative partnerships to address local and regional environmental, social, and economic challenges
- Advancing the sustainable performance of our members
- Recognizing and sharing outcomes

Differing levels of membership allow for a wide-range of participating members. The SAC is open to industry, academic institutions, states and other government agencies, non-industrial and municipal organizations, and financial institutions. Current members include:

- BMW
- Johnson & Johnson
- Michelin north America
- Rockwell Collins
- Pfizer
- Audubon International
- Calvert Asset Management
- Iowa Department of Natural Resources
