TOPIC

Emergency Final Rule: Chapter 40-Boating Speed and Distance Zoning - Clear Lake

The Commission is asked to approve an Emergency Final Rule for Chapter 40, Boating Speed and Distance Zoning due to a dredging operation. The dredging is scheduled to start approximately July 1, 2008, and end approximately July 1, 2009. Due to safety concerns for recreational boating activity in this area, Department staff is requesting that a speed restriction be placed at the west end of Clear Lake in the area locally known as "Little Lake."

Kenneth Herring, Administrator
Conservation and Recreation Division
