

NINE EAGLES STATE PARK

EXPLORE IOWA STATE PARKS!

Founded in 1920, Iowa's state park system boasts 87 state parks for you to explore and enjoy.

Nine Eagles State Park opened in 1940 and safeguards 1,100 acres of rugged hills and valleys. Native plants flourish here, providing excellent cover for a myriad of wildlife. Travel 9 miles of hiking or 6 miles of equestrian trails. Spot white-tailed deer and colorful songbirds among the forests' ancient oaks. Protected by this woodland watershed, the park's 64-acre lake is one of the clearest artificial impoundments in the state. Swim or fish from rowboats or electric motorboats only. Picnic or just relax at Nine Eagles – one of southern Iowa's most scenic state parks.

Plan ahead and prepare –

- Make sure you prepare for the day by bringing plenty of water, sunscreen, bug spray, and comfortable walking/hiking shoes.
- Always make sure someone knows you are out on the trail.

Dispose of waste properly –

- Pack out all trash, leftover food and litter.
- Pick up any litter you find on the trail and make the place better for the next visitor who comes along.

Respect wildlife –

- Observe wildlife from a distance. Do not follow or approach them. Leave all young wildlife as you find them and don't assume they've been abandoned. Many adults hide young to keep them safe while they are out feeding or leading predators away.
