

# DNR Watershed Improvement Program Process Plan

- 1** Impaired waters with sustained local interest in water quality that DNR staff is aware of
- 2** Waterbodies with a TMDL in progress
- 3** A group of waterbodies with local interest and a completed TMDL
- 4** DNR's planning grant program awards groups with significant funds to develop a WMP
- 5** Waterbodies currently in the process of developing a watershed management plan

- 6** Watershed groups can choose to develop a WMP independent of DNR funding
- 7** Waterbodies currently developing a WMP independent of DNR funding
- 8** A group of waterbodies with an approved WMP; these groups are eligible for 319 funding
- 9** 319 funding cycles are 3, 4, & 5 years from eligible projects listed in the Approved Plans Pool
- 10** After as many 319 and other funding cycles as it takes, an impairment is removed and completed
