POLLUTION PREVENTION SERVICES

FOR NEARLY 20 YEARS, Pollution Prevention Services' team of technical engineers has assisted Iowa businesses and industries by working with plant managers to identify and implement improvement projects, leading to more efficient use of resources and generate cost savings.

Pollution Prevention Services maintains complete confidentiality while providing non-regulatory assistance at no cost to our clients.

CONFIDENTIAL - As spelled out in Iowa Code, our long-standing confidentiality policy ensures all client information provided remains completely confidential.

NON-REGULATORY - Our program does not deal with any aspects of environmental regulation. We do not provide compliance assistance, write permits, etc.

NO COST - We uniquely provide high-quality pollution prevention engineering technical assistance free of charge to all clients.

Pollution Prevention Services has worked with a large number of Iowa industries in various business and manufacturing sectors. The results are significant—since 2001, our work has yielded clients more than \$54 million in implemented cumulative annual savings.

Company savings are generated by focusing on process improvement projects – identifying ways to help our clients reduce costs by improving resource efficiency. Our technical assistance team provides clients with the following:

- **Assessments**- Focused or facility-wide, process, building and/or grounds
 - **Energy**- compressor utilization, HVAC efficiency, lighting effectiveness
 - **Water** - water use, wastewater generation and treatment needs
 - **Waste** - hazardous waste, solid waste
- **Pollution Prevention Intern Program** - clients are provided an opportunity for project implementation support through our annual competitive Pollution Prevention Intern Program
- **Environmental Management System (EMS) Assistance**
- **Pollution Prevention Workshops and Trainings**

GET STARTED

Your company is eligible to work with Pollution Prevention Services if you fall into the following criteria:

Your company employs 100 employees or more. This could include:

- **Iowa businesses and industries**
- **Institutions – hospitals, schools, universities, etc.**
- **Governmental agencies**

Your company employs less than 100 employees, but falls into at least one of the following categories:

- **Toxic Release Inventory (TRI) reporter**
- **Resource Conservation and Recovery Act (RCRA) Large Quantity Generator of hazardous waste**
- **Large Energy User (greater than \$1 million in energy usage per year)**

Working with Pollution Prevention Services provides Iowa companies with the unique opportunity to achieve collective “win-win” benefits – your company will realize substantial cost savings and at the same time make efficiency improvements to your operation that yield environmental benefits.

Many of our clients have worked with Pollution Prevention Services on an on-going basis for a number of years, continually seeking new pollution prevention opportunities at their facilities. As your company continues to evolve, your partnership with Pollution Prevention Services ensures you are operating as efficiently and effectively as possible, keeping costs down and increasing your competitive edge in a continually changing economy.
