Dear Sir;

As an entity of the Adair County Landfill and members of the council in the City of Casey, Iowa, we think your demands are rather unreasonable in regards to the future of the landfill.

We thought we had five to six (5 - 6) years to get ready for some drastic changes and now we have to have everything in place in two (2) years.

This is putting a hardship on the landfills and the general public, with the economy already spiraling downward.

Have you taken into consideration that this change could put you among the unemployed and also cause the ditches to fill up?

We would appreciate it if you would reconsider these abrupt changes and give us more time to prepare for them.

Sincerely,

Casey City Council and Mayor
