The primary purpose of this call is to update you on our recommended approach for how to divide into four subcommittees. We took into consideration the many options that were shared by you at our first meeting and believe that this approach encompasses many of the ideas presented and will best enable us to meet the overall requirements outlined in our charge.

The recommended approach (Proposed Sub-Committee Categories v1 0.pdf) is posted on the DNR website at: <http://www.iowadnr.gov/waste/sw/taskforce.html>

Please review this document prior to our conference call so that you come prepared to this meeting with any questions or suggestions. Our goal is to reach consensus on this approach, after which we will ask you to identify which of the four proposed subcommittees you are most interested in participating. By the time you arrive at our September 24 meeting in Des Moines, we will have finalized membership on the four subcommittees so that the groups can begin their work at that meeting.
