

Exhibit 4 SRF Environmental Review Checklist

The following checklist outlines the information needed to start the SRF Environmental Review (ER). Please provide the following to the SRF ER Specialist:

- A listing of any other planned sources of federal funding to better coordinate environmental review efforts
- An accurate map of the site with marked boundaries; if the specific area has yet to be specifically defined, please mark a larger area that will include the final project area
- A project description detailing the project scope
- A description of any ancillary impact—destruction or abandonment of current building/structures, borrow pits, staging area, new access for roads/utility lines.
- A description of the existing environment without the project including:
 - The current use(s) of the project area and immediate vicinity
 - The current habitat of the project area and immediate vicinity
 - If farmland is going to be converted to non-farmland, please provide answers to the following:
 - What is the size of the farm unit(s) containing the project area?
 - How much of the project area has been farmed (managed for a scheduled harvest or timber activity) more than 5 of the last 10 years?
 - How much of the project area will be converted from agricultural use as a result of the proposed project?
- Photos of the project site showing current use and habitat (digital files are preferred)
- A description of the expected future environment without the project if it is expected to change from the existing environment.
- A short discussion of other feasible options (alternative locations, techniques, methods, or capacities considered) and the rationale used to select the proposed project over these other options.
- Contact information for the property landowner if an archeological survey becomes necessary.
- A listing of any expected impacts to the environment, if known, and a listing of any planned steps to minimize adverse effect.
