

Facility Name: _____

NPDES PERMIT APPLICATION – SUPPLEMENT

TDS and CHLORIDE DATA

In addition to information required elsewhere in this application, you must submit the results of analysis of at least one sample of your final effluent for both total dissolved solids (TDS) and chloride and report the result(s) below. The sample you collect must be representative of your current operation and must be collected during dry weather when the effluent is not materially influenced by storm water runoff or snow melt. The sample you collect must be a 24-hour composite sample unless the discharge is from a lagoon or holding pond with a retention time of greater than 24 hours in which case a grab sample is acceptable. You may use historical data if it meets these requirements and has been collected during the past twelve (12) months. You must report data for each outfall except any outfall that discharges only storm water.

Outfall No: _____

Pollutant	Maximum Daily Value		Average Daily Value (last year)		Number of Measurements Taken <i>(last 12 months)</i>	Certified Laboratory Number
	Mass (lbs/day)	Concentration (mg/l)	Mass (lbs/day)	Concentration (mg/l)		
Total Dissolved Solids (TDS)						
Chloride						

Outfall No: _____

Pollutant	Maximum Daily Value		Average Daily Value (last year)		Number of Measurements Taken <i>(last 12 months)</i>	Certified Laboratory Number
	Mass (lbs/day)	Concentration (mg/l)	Mass (lbs/day)	Concentration (mg/l)		
Total Dissolved Solids (TDS)						
Chloride
