

Table 2. Criteria for Dissolved Oxygen

(all values expressed in milligrams per liter as N)

	B(CW)	B(WW)	B(LR)	B(LW)
Minimum value for at least 16 hours of every 24-hour period	7	5	5	5.0*
Minimum value at any time during every 24-hour period	5	5	4	5.0*

*applies only to the upper layer of stratification in lakes
