

DISCLAIMER: Information in the tables below reflects how many hunters were drawn from each preference point pool in 2018 and may not be the same in subsequent years. The information should give you a better idea of how many preference points are needed to draw in your desired zone and season (Gun or Bow). Persons who have only purchased preference points (PPs) and have not entered into the drawing are not figured into the drawing statistics. There is no way to factor in how these individuals could affect the odds because PPs are neither zone nor season specific. Good luck in the draw!
