Vision Statement

Working together to increase farmer profitability, quality wildlife habitat, public hunting access and local economic development.

Where and How?

- Cass, Fremont, Harrison, Mills, Montgomery, Page, Shelby Counties with a special emphasis in Pottawattamie County.
- By engaging state and local agencies, PF chapters, tourism officials, local businesses and other interested organizations.

What is Precision Ag?

- Using on-farm data to help make management decisions
 - On-farm data can be anything from yield data to planting maps and fertilizer
- More information= more informed decisions!

Habitat Opportunities

- Ability to impact existing habitat through maintenance of CRP or establishment mowing cost share
- Ability to identify new habitat through Precision Ag analysis

Benefits to Farmers

- Free one year Profit Zone Manager subscription
- Precision Conservation Report identifying less profitable acres of the farm and how to increase their profitability
- Unlimited technical support
- Expenses covered for Habitat improvements through DNR's Iowa Habitat and Access Program.

We Need You!

- Assist us in developing a hunting marketing plan for SW Iowa.
- Support through financial contributions; **\$25,000 remaining** to reach our total goal of \$248,900.
- Assistance in generating interest in the Agricultural Community

Thank You!

Rachel Vanderwerff
