- *35. Chapter 32, "Private Open Space Lands" – Final Rule
- *36. Chapter 33, "Resource Enhancement and Protection Program: County, City, Private Open Spaces and Conservation Education Grant Programs" – Final Rule
- *37. Chapter 34, "Community Forestry Grant Program" – Final Rule
- *38. Chapter 35, "Fish Habitat Promotion for County Conservation Boards" – Final Rule
- *40. Chapters 94 and 106, "Deer Hunting" – Final Rule

<i>Motion was made by Tammi Kircher to approve the agenda as amended. Seconded by Laura Foell.</i>
<i>The Chairperson asked for the Commissioners to approve the agenda by saying aye. There were no nay votes. Motion passes.</i>

AGENDA AND CONSENT AGENDA APPROVED AS PRESENTED
--

APPROVAL OF MINUTES

<i>Commissioner Laura Foell requested that Uriah Hansen be added to the list of Commissioner in attendance at the March NRC meeting. Motion was made by Laura Foell to approve the March 14, 2024, NRC minutes as amended. Seconded by Laura Foell.</i>
<i>The Chairperson asked for the Commissioners to approve the minutes by saying aye. There were no nay votes. Motion passes.</i>

APPROVED AS AMENDED

DIRECTOR’S REMARKS

- Deputy Director, Alex Moon, gave an update on the DNR office relocation in Des Moines including the new address and moving details.

DIVISION ADMINISTRATOR’S REMARKS

- Division Administrator Pete Hildreth provided updates to the Commissioners regarding several late Spring Department activities including gillnetting, raccoon and deer spotlight surveys, prescribed burns on public land and the Spring Youth Turkey season.
- Division Administrator Hildreth turned it over to Chris Ensminger to provide an overview of the February hunter/trapper listening sessions that took place at 18 locations throughout the state. In his update, Mr. Ensminger noted 432 were in attendance and around 300 comments were collected. Mr. Ensminger provided a high level overview of trending comments received for a variety of species including deer, waterfowl, turkey, and various furbearers.

CONTRACT WITH ECOLOGICAL AND GIS SERVICES-IOWA WILDLIFE ACTION PLAN REVISION ASSISTANCE

Katy Fuller requested Commission approval for a contract with Ecological and GIS Services to assist with the revision of Iowa’s Wildlife Action Plan.

Public Comments – None

Written Comments – None

<i>Motion was made by Laura Kudej to approve the item as presented. Seconded by Tammi Kircher.</i>
<i>The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.</i>

APPROVED AS PRESENTED

SMALL CONSTRUCTION PROJECTS-FUEL TANK REPLACEMENT AT WAPSIPINICON AND PALISADES KEPLER STATE PARKS; CULVERT REPLACEMENT AT LAKE DARLING STATE PARK

Travis Baker provided an information brief regarding two small construction projects including fuel tank replacement at Wapsipinicon and Palisades Kepler State Parks and a culvert replacement at Lake Darling State Park.

Public Comments – None

Written Comments – None

INFORMATION

LARGE CONSTRUCTION PROJECT-LAKE OF THREE FIRES STATE PARK, JETTY REPAIR

Travis Baker requested Commission approval for jetty repair at Lake of Three Fires State Park.

Public Comments – None

Written Comments – None

Motion was made by Laura Foell to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

LARGE CONSTRUCTION PROJECT-YELLOW RIVER STATE FOREST ROAD MAINTENANCE

Travis Baker requested Commission approval for road maintenance at Yellow River State Forest.

Public Comments – None

Written Comments – None

Motion was made by Tammi Kircher to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

LARGE CONSTRUCTION PROJECT-WIESE SLOUGH WMA, ROAD MAINTENANCE

Travis Baker requested Commission approval for road maintenance at the Wiese Slough Wildlife Management Area.

Public Comments--None

Written Comments – None

Motion was made by Laura Kudej to approve the item as presented. Seconded by Laura Foell.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

LARGE CONSTRUCTION PROJECT-LEWIS AND CLARK STATE PARK, VISITOR CENTER WATER MITIGATION

Travis Baker requested Commission approval for a project to mitigate water at the Lewis and Clark Visitor Center.

Mr. Baker and Sherry Arntzen responded to questions regarding the extent of the water damage, including any finished spaces in the basement of the facility.

Public Comments--None

Written Comments – None

Motion was made by Laura Foell to approve the item as presented. Seconded by Tammi Kircher.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

LARGE CONSTRUCTION PROJECT-WAPSIPINICON STATE PARK AND PALISADES-KEPLER STATE PARK, FUEL TANKS REPLACEMENT

Travis Baker requested Commission approval to replace fuel tanks at both Wapsipincon and Palisades-Kepler State Parks.

Public Comments--None

Written Comments – None

Motion was made by Tammi Kircher to approve the item as presented. Seconded by Laura Foell.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

LARGE CONSTRUCTION PROJECT-SEDAN BOTTOMS WMA, BUILDING IMPROVEMENTS

Travis Baker requested Commission approval of a project that includes several building improvements at Sedan Bottoms WMA.

Public Comments--None

Written Comments – None

Motion was made by Laura Foell to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

RUBIO WILDLIFE MANAGEMENT AREA, WASHINGTON AND KEOKUK COUNTIES-IOWA NATURAL HERITAGE FOUNDATION

Travis Baker requested Commission approval to purchase a tract of land located in Washington and Keokuk Counties adjacent to the Rubio Wildlife Management Area.

Public Comments--None

Written Comments – None

Motion was made by Tammi Kircher to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for a roll call vote. Tammi Kircher-aye, KR Buck-absent, Laura Foell-nay, Uriah Hansen-aye, Laura Kudej-aye, Tom Prickett-absent, Marcus Branstad-aye. Motion passes.

APPROVED AS PRESENTED

PUBLIC LAND MANAGEMENT PROJECT-MANAGEMENT AGREEMENT, SAUK RAIL TRAIL-SAC COUNTY CONSERVATION BOARD

Travis Baker requested Commission approval of a management agreement with Sac County Conservation Board regarding the Sauk Rail Trail.

Public Comments--None

Written Comments – None

Motion was made by Tammi Kircher to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

CONTRACT WITH SHIVE-HATTERY-REPLACEMENT BRIDGE DESIGN, VOLGA RIVER STATE RECREATION AREA

Travis Baker requested Commission approval of a contract with Shive-Hattery for the replacement bridge design at Volga River State Recreation Area.

Public Comments--None

Written Comments – None

Motion was made by Laura Kudej to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

CHAPTER 1, "OPERATIONS OF NATURAL RESOURCE COMMISSION"-ADOPTED AND FINAL RULE

Kelli Book requested Commission approval of the Adopted and Final Rule for Chapter 1, "Operations of Natural Resource Commission." Mrs. Book provided clarification on the real estate language that was added to the final rule.

Public Comments--None

Written Comments – None

Motion was made by Laura Foell to approve the item as presented. Seconded by Uriah Hansen.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

CHAPTER 61 "STATE PARKS, RECREATION AREAS, AND STATE FOREST CAMPING"-ADOPTED AND FINAL RULE

Jessica Manken requested Commission approval of the Adopted and Final Rule for Chapter 61, "State Parks, Recreation Areas, and State Forest Camping."

Public Comments--None

Written Comments – None

APPROVED AS PRESENTED

CHAPTERS 94 AND 106 "DEER HUNTING," ADOPTED AND FINAL RULE

Chris Ensminger requested Commission approval of the Adopted and Final Rule for Chapters 94 and 106, "Deer Hunting."

Public Comments--None

Written Comments – None

Motion was made by Tammi Kircher to approve the item as presented. Seconded by Laura Foell.

The Chairperson asked for the Commissioners to approve the motion by saying aye. There were no nay votes. Motion passes.

APPROVED AS PRESENTED

GENERAL DISCUSSION

- Commissioners shared a variety of updates about their recent experiences and what they are looking forward to this Spring, including shed hunting, turkey hunting, fly fishing, mushroom hunting, Spring planting, visits to Iowa’s State Parks, and camping.
- Commissioner Kircher requested an executive leadership discussion regarding the Law Enforcement alignment process that is currently underway at the Department. Commissioner Kircher expressed disappointment that the Commission was not involved and shared concerns regarding the decision, citing Iowa Code section 455A.7. Pete Hildreth responded to several Commissioner questions about the alignment and provided a high level overview of the changes. General Counsel Tamara McIntosh provided clarification on the Department’s interpretation of Iowa Code section 455A.7 and its applicability to the Law Enforcement alignment. Commissioner Kircher encouraged more proactive communication with the commissioners in the future pertaining to large Departmental topics and changes.

ADJOURN

The Chairperson adjourned the Natural Resource Commission meeting at 11:10 am on April 11, 2024.

Pete Hildreth, Division Administrator
Conservation and Recreation Division
NRC Meeting Date: May 9, 2024

Iowa Department of Natural Resources
Natural Resource Commission

Decision Item (**indicates proposed consent agenda*)

***7. Contract with JEO Consulting Group, Inc.**

Commission approval is requested for a contract with JEO Consulting Group of Ankeny, IA.

Contract Terms

Amount: Not to exceed **\$59,490.00**

Dates: May 10, 2024 to May 31, 2025

Funding Source(s): Woodland Health Initiative and Federal Bipartisan Infrastructure Law

Contract Purpose: To assist 15 Iowa communities with planning and managing their urban tree resources, development of response to the presence of Emerald Ash Borer and other tree pests and problems. As a part of the project each eastern Iowa community included in the contract will receive an inventory of street and park trees, a visual survey of forest health symptoms, a summary of benefits those trees, and an urban forest management plan.

Tasks include:

- Inventory street and park trees in identified communities. Collect data for each tree that includes all required categories for data collection, i.e., GPS derived locations for each tree and data elements for each tree.
- Visually survey all trees for signs and symptoms of invasive pest and disease in the identified communities, return data to DNR in shapefile format via e-mail.
- Calculate the benefit of the street and park trees using the most current version of i-Tree and create maps of the trees for each urban forest management plan.
- Finalize urban forest management plans for the identified communities and submit plans to DNR for approval.
- Presentation of the urban forest management plans to each community.

Communities include: Alton, Clarksville, Gilbert, Gilmore City, Glidden, Greenfield, Hawarden, La Porte City, Murray, New Albin, New Sharon, Remsen, Schaller, Wheatland and Winthrop.

This process has been done annually since 2012 for 207 other communities in total. These inventories and plans have aided communities with current information to make tree care and budget decisions. The data collected in these assessments have helped prioritize removal and treatment of ash trees as well as monitor for pests like walnut twig beetle which is necessary for Iowa to continue the international sale of wood products.

Selection Process Summary: The Department solicited proposals from 194 in-state arborists and national tree inventory companies. Proposals were scored based on the criteria as described in the RFP which included cost of service and experience conducting street tree inventories and writing urban forestry management plans which includes work plan, past work projects, capacity of respondent and mechanism for GIS collection.

Criteria Reviewed: Cost, brief company overview including capacity to complete the Statement of Work Work Plan including time frame, experience conducting street inventories and writing urban forestry management plans, experience and references that demonstrate the expertise and ability of the respondent to provide the Statement of Work described in the Informal RFP, the capacity of the respondent to complete responsibilities described in the Statement of Work, and the mechanism for creation and delivery of GIS file geodatabase.

Proposal Due Date: April 12, 2024

of Proposals Received: 4

Recommendation: JEO Consulting Group, Inc.

Vendor	Vendor Location (city, state)	Score of 150 (115 points technical + 35 points cost)	Rank	Cost
Eocene Environmental Group	West Des Moines, IA	86	4	\$73,645.00
Foth Infrastructure & Environment, LLC.	Johnston, IA	107	2	\$36,240.00
JEO Consulting Group, Inc.	Ankeny, IA	113	1	\$59,490.00
Steigerwaldt Land Services, Inc.	Tomahawk, WI	87	3	\$84,551.00

Jeff Goerndt, State Forester, Forestry Section
 Conservation and Recreation Division
 NRC Meeting Date: May 9, 2024

**Iowa Department of Natural Resources
Natural Resource Commission**

Decision Item

8. Contract Amendment with Trees Forever, Inc.

Commission approval is requested for a contract amendment with Trees Forever, Inc., of Marion, Iowa.

Contract Terms

Amount: Not to exceed \$ 350,000.00

Dates: May 10, 2024 through October 14, 2026

Funding Source(s): General Fund (Woodland Health) ,US Forest Service Federal Funds

Contract Purpose: The DNR Forestry Section maintains Forest Health and Urban Forestry programs to assist communities with analysis, planning, and management of their tree resources. Trees Forever, Inc., is a conservation organization that works to improve the environment of Iowa and Illinois by promoting stewardship. The DNR and Trees Forever, Inc., have a history of working together to advance shared priorities.

The DNR's purpose in entering into this cooperative agreement is for the DNR to provide funding for Trees Forever to hire and employ up to four Community Forest Health Technicians. The DNR will provide the structure of a Forestry Program within which the Technicians will work, monitor the day-to-day work of the Technicians, and provide training, vehicles, computers, communications, and GIS support. The DNR and Trees Forever will coordinate efforts and determine work and location priorities for the Technicians. These priorities will be consistent with the goals and objectives in the State Forest Action Plan. This partnership will help achieve joint goals and objectives with DNR to grow healthy community forests in the state. Tasks for the Community Forest Health Technicians include:

- Assist communities by conducting tree inventories, canopy cover assessments, and preparing management plans
- Perform risk tree assessments to help communities and public areas maximize safety
- Coordinate volunteer efforts and help implement replanting programs for communities

This amendment adds additional money and time to the cooperative agreement.

Selection Process Summary: This contract is authorized by 11 Iowa Administrative Code sections 117.5(5) and 118.7.

Contract History:

Original Contract Terms: Amount \$434,527.87; Timeframe October 15, 2020 to October 14, 2022

Amendment 1 Terms: Amount: No cost; Timeframe: October 13, 2022 through October 14, 2024

Amendment 2 Terms: Amount: \$350,000.00; Timeframe: May 10, 2024 through October 14, 2026

Jeff Goerndt, State Forester
Conservation and Recreation Division
NRC Meeting Date: May 9, 2024

Iowa Department of Natural Resources
Natural Resource Commission

Decision Item

9. Subrecipient Agreement with Iowa State University

Commission approval is requested for a Subrecipient Agreement with Iowa State University.

Contract Terms

Amount: Not to exceed \$43,093.00

Dates: May 10, 2024 to December 31, 2026

Funding Source(s): Landscape Scale Restoration Grant from U.S. Forest Service

Contract Purpose: As part of a grant from the U.S. Forest Service, Iowa State University is collaborating with Iowa DNR in delivering programming to female woodland owners, as part of the Iowa Women's Woodland Stewardship Network. Iowa State University will provide targeted outreach, hands-on training, and networking to female woodland landowners and decision-makers in Iowa. In addition, Iowa State University will develop and administer surveys and analysis to evaluate the effectiveness of the outreach and training events conducted by project partners, including DNR.

Selection Process Summary: DNR may enter into this Subrecipient Agreement with ISU under the authority of Intergovernmental contracting with Iowa State University, 11 Iowa Administrative Code section 118.4.

Criteria Reviewed: Criteria reviewed for this work included the respondent's professional experience, their capacity to complete the responsibilities described in the statement of work, and the thoroughness of their response to the RFP.

Recommendation: DNR recommends the approval of this Subrecipient Agreement with Iowa State University in the amount of \$43,093.00.

Jeff Goerndt, State Forester

Conservation and Recreation Division

NRC Meeting Date: May 9, 2024

Iowa Department of Natural Resources
Natural Resource Commission

Decision Item

10. Contract with Pheasants Forever, Inc.

Commission approval is requested for a contract with Pheasants Forever, Inc., of Saint Paul, Minnesota.

Contract Terms:

Amount: Not to exceed \$7,440,709.00

Dates: July 1, 2024 to June 30, 2030

Funding Source(s): Fish and Wildlife Trust Fund

Contract Purpose: The DNR is partnering with Pheasants Forever, Inc. (PF) to provide up to twenty Wildlife Management Specialists to carry out habitat improvement and wildlife management activities on public and private lands.

The DNR Wildlife Bureau actively manages public land and wildlife populations statewide to maintain biological balance and for the benefit of the public. This cooperative agreement will allow the Department to work with PF to fill critical needs in a fiscally responsible manner that can be adjusted depending upon the availability of funding as well as the land and wildlife management needs on the ground. Similar contracts between the Department and PF have been implemented.

Under this contract, PF will hire and employ up to 20 Wildlife Management Specialists for a period of up to six years. The Wildlife Management Specialists will work closely with DNR Wildlife staff to conserve and enhance wildlife habitat on DNR-managed lands. They will perform a variety of activities (e.g., invasive species removal, assisting with prescribed fire, maintaining infrastructure such as fence or parking lots, and assisting with long-term wildlife monitoring activities such as bird banding or CWD sample collection). Pheasants Forever, Inc. is managing staffing and providing oversight with leadership and guidance on activities from DNR. The DNR will provide these specialists with any necessary training, equipment, and safety gear needed to perform their functions as well as facilitate collaboration with DNR field staff.

Selection Process Summary: Development of agreements is authorized under Iowa Code section 455A.4(6) and 456A.24.

Decision Item

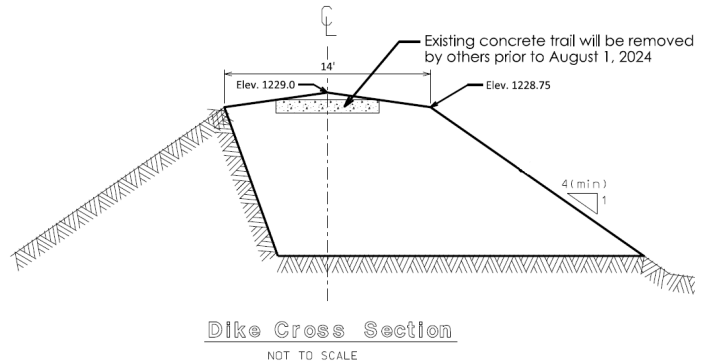

12. Large Construction Projects

12.1 Black Hawk Marsh WMA, Dike Repair – Sac County

The Department requests Commission approval of the following construction project:

Project Summary: The Black Hawk Marsh wildlife management area covers over 2,000 acres and consists of marsh, timber, and upland wildlife habitat which provides for multi-use outdoor recreation. The WMA is located approximately 7 miles south of Sac City and is adjacent to Black Hawk State Park.

The main dike for the marsh was constructed in 1993. Over the years, muskrats have burrowed voids in the dike, causing uneven settlement and damage to approximately 4,000 feet of the dike. This project will remove and recompact the dike soils. The Sac County Conservation Board is responsible for removing and replacing the existing concrete trail that runs along the top of the dike.

Engineering Project #: 25-01-81-01

Cost Estimate: \$170,000

Operating Bureau: Wildlife

Funding Source: 100% Federal Inflation Reduction Act grant

Bid Letting Date: 04/18/2024

Construction Completion Date: 04/15/2025

Number of Bids Received: 11

Bidders

John Healy dba Healy Excavating	Lake View, IA	\$101,827.50
Bedrock Gravel Inc	Schleswig, IA	\$144,853.00
Armodus LLC	Mondamin, IA	\$146,851.75
Aaron Crane Construction LLC	Manchester, IA	\$156,457.00
Johnston Excavating LLC	Sloan, IA	\$157,465.36

Legacy Corporation of IL	East Moline, IL	\$279,913.00
Jay-R Corporation	Mount Ayr, IA	\$302,394.00

Upon Engineering’s review of bids, DNR recommends awarding the contract to John Healy dba Healy Excavating.

12.2 Rock Creek State Park, Shoreline Stabilization – Jasper County

The Department requests Commission approval of the following construction project:

Project Summary: Located about 6 miles northwest of Kellogg, Rock Creek State Park is approximately 1,697 acres in size, and was dedicated in 1952. The 175-site campground borders the lake and includes electrical hookups and modern restrooms. The park offers trails to accommodate a wide variety of activities, including hiking, horseback riding, cross country skiing, and snowmobiling.

The lake experiences periods of high turbidity and low visibility due to shoreline erosion and resuspension of solids due to wave action. Many of the areas experiencing wave-action erosion have never been armored. This project will armor approximately 17,685 linear feet of shoreline with rock revetment.

Engineering Project #: 24-05-50-01

Cost Estimate: \$2,000,000

Operating Bureau: Lake Restoration/Fisheries

Funding Source: \$125,000 319 funds, \$439,000 MFT, \$662,032 Lake Restoration

Bid Letting Date: 04/18/2024

Construction Completion Date: 11/30/2025

C J Moyna & Sons LLC	Elkader, IA	\$2,640,241.00

Upon Engineering’s review of bids, DNR recommends awarding the contract to Jay-R Corporation.

12.3 Rathbun WMU, Road Maintenance – Appanoose, Lucas and Wayne Counties.

The Department requests Commission approval of the following construction project:

Project Summary:

The Rathbun Wildlife Management Unit (WMU) is located in 5 different counties – Clarke, Lucas, Monroe, Wayne and Appanoose. These 5 counties contain 17 different Wildlife Management Areas, and comprise of 29,407 acres of habit. This habitat includes: lake, timber, upland, ponds and marsh. The diversity of these areas attracts hunters, anglers, hikers, backpackers, bird watchers, horseback riders, mountain bikers.

This project includes 5 different roads throughout the Rathbun WMU. One road is the only access to Browns Slough and two of the roads provide launch access to Rathbun Lake. The road to the HQ building will need one culvert dug up and pinned back together due to separation. The separation is causing erosion of the roadway embankment. Roadway blading, shaping and additional rock will be added. The second road will have a rusted-out CMP culvert replaced by an RCP culvert with footing. Erosion stone and rip rap will also be added at the inlet and outlet to prevent future erosion. Blading, shaping and additional rock will complete this road. The third road will be bladed, shaped and have additional rock placed. The fourth road will need brush cleared out of the ROW ditches and have additional rock placed after blading. The fifth road will have some minor ditch cleaning to improve drainage, a rusted-out CMP culvert replaced with an RCP culvert. Erosion stone and rip rap will be place at the inlet and outlet as well. Roadway blading, shaping and the addition of rock will complete the work on this road.

Engineering Project #: 23-05-59-01

Cost Estimate: \$160,000

Operating Bureau: Wildlife

Funding Source: Parks and Institutional Road Fund

Bid Letting Date: 4/18/2024

Construction Completion Date: 8/31/2024

Number of Bids Received: 5

Bidders

IA Builder Dirtwork LLC	Albia, IA	\$118,419.75
Leffler Dirtworks LLC	Oskaloosa, IA	\$139,690.00

**Iowa Department of Natural Resources
Natural Resource Commission**

Decision Item

13. Public Land Acquisition Project

13.1 Muskrat Slough Wildlife Management Area, Jones County – Eastern Iowa Conservation Foundation

The Natural Resource Commission's approval is requested to purchase a tract of land located in Jones County adjacent to Muskrat Slough Wildlife Management Area (WMA).

Seller: Eastern Iowa Conservation Foundation

Acreage: 13.27 acres

DNR Purchase Price: \$30,000

Appraised Value: \$80,300

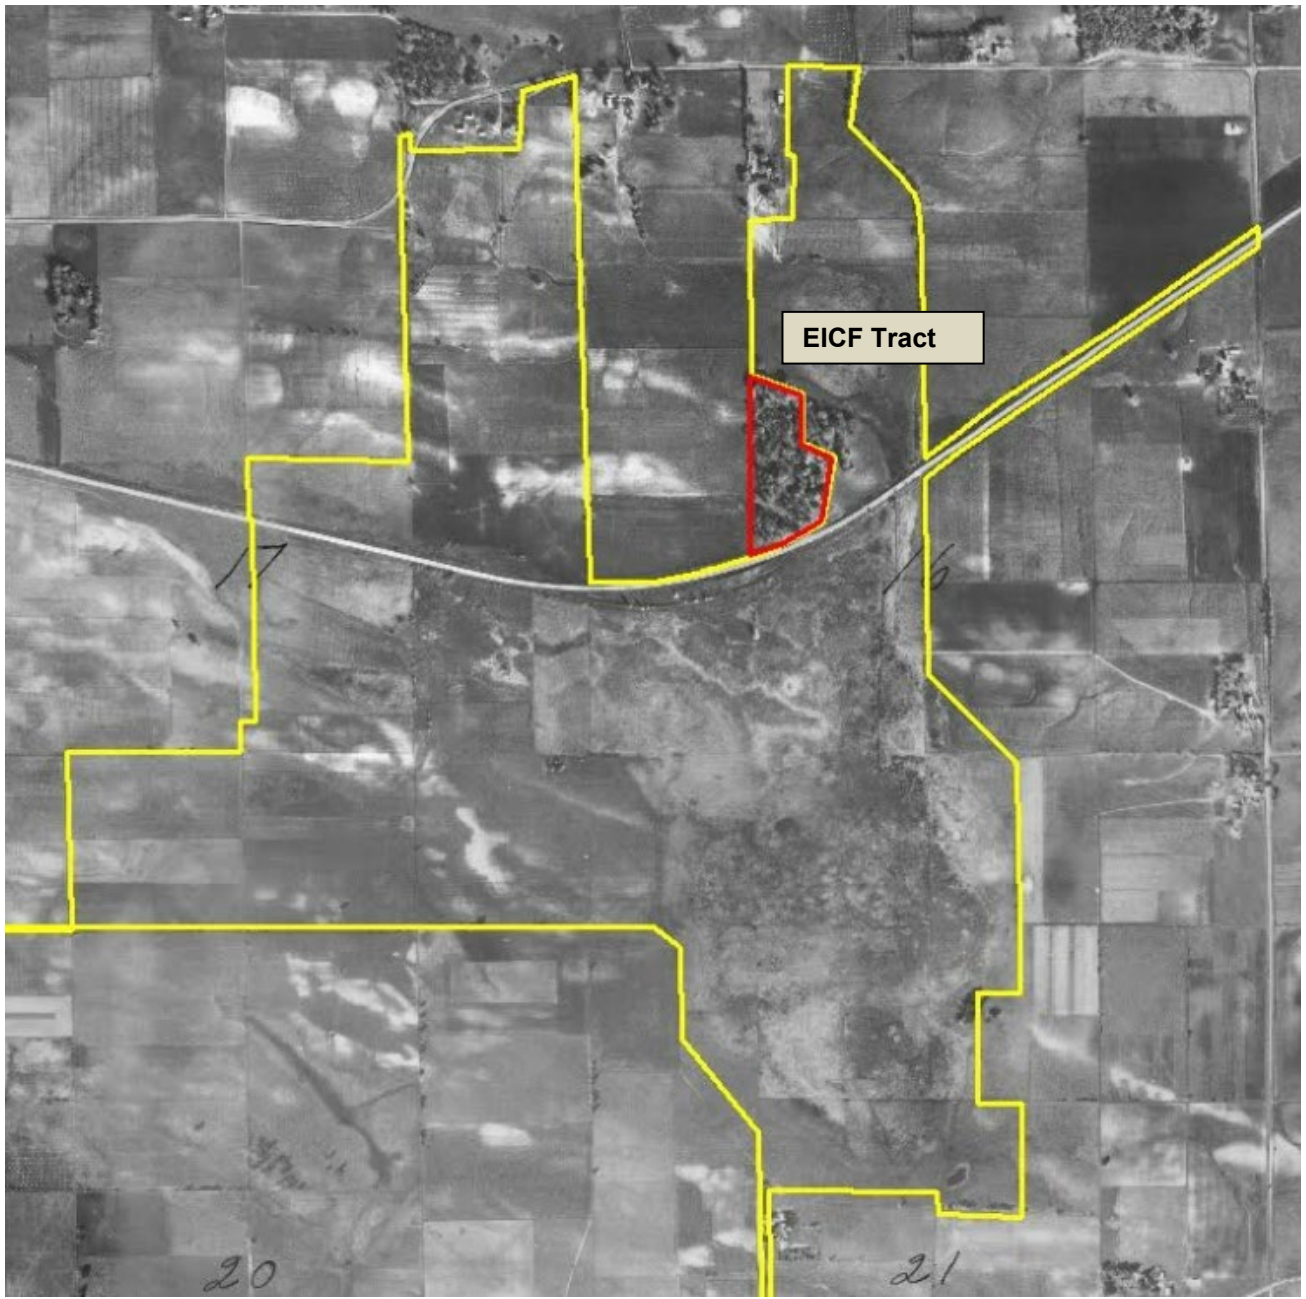

Property Description: This tract is an inholding within Muskrat Slough WMA located 4 miles west of Olin. Although small, this tract is a critical inholding on the public land complex. Acquisition of the tract resolves access issues that arise from the tract being privately owned. It also provides a high-quality forest component to the WMA, which is limiting factor. The tract has numerous majestic, old-growth bur oaks present, and surprisingly, more recent regeneration of younger age classes of bur oak. Based on historic aerial photography this tract has been timber/oak savanna since before the 1930's. Black cherry, hackberry and some walnut also exist in the stand.

Purpose: The site has great potential to be restored to an oak savanna or open oak woodland state, with potential to restore the herbaceous ground layer to native prairie species. This could benefit Rusty Patch Bumble Bee (Federally Endangered) and other pollinators, herptiles such as Eastern gray treefrog, Smooth green snake (State Species of Special Concern), and Western fox snake, birds such as the Baltimore oriole and Red-headed woodpecker, the Least shrew (State Threatened) and numerous game species. This site will be open to public hunting and other outdoor recreation opportunities.

DNR Property Manager: Wildlife Bureau

Funding Source(s): \$30,000 Wildlife Restoration Federal Land Grant, \$50,300 Donated Value

Incidental Costs: Incidental closing costs will be the responsibility of the Department.

13.2 Wapello Bottoms Wildlife Management Area, Louisa County – Loren W. Humphrey Revocable Trust

The Natural Resource Commission's approval is requested to purchase a tract of land located in Louisa County adjacent to Wapello Bottoms Wildlife Management Area (WMA).

Seller: Loren W. Humphrey Revocable Trust

Acreage: 25.66 acres

DNR Purchase Price: \$25,000

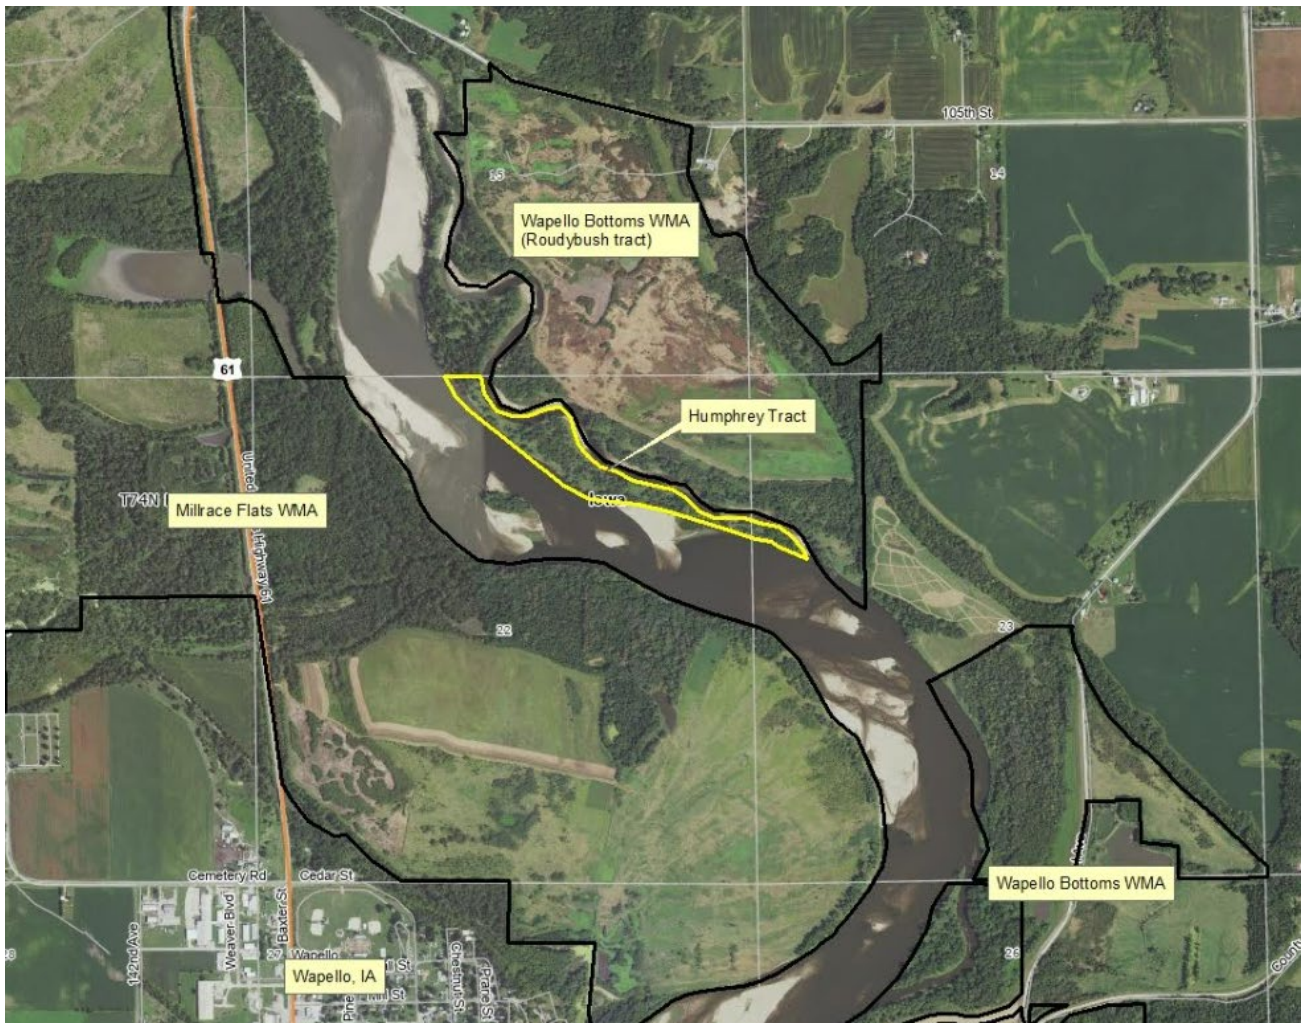

Property Description: This tract is an Iowa River island, just west of the Wapello Bottoms WMA (Roudybush tract), located one mile north of Wapello. This island has limited access and thus has limited potential for management.

Purpose: The side channel of the Iowa River between the island and the mainland is threatening the infrastructure of the Roudybush wetland. Ownership of the island will allow for us to manage both sides of the channel, protecting the Roudybush infrastructure. The timing of this acquisition lines up with a NAWCA funded enhancement of the Roudybush wetland. This site will be open to public hunting and outdoor recreation opportunities.

DNR Property Manager: Wildlife Bureau

Funding Source(s): \$25,000 Wildlife Habitat Stamp

Incidental Costs: Incidental closing costs will be the responsibility of the Department. The property will remain on property tax rolls in Louisa County.

Travis Baker, Land & Waters Bureau Chief
Conservation and Recreation Division
NRC Meeting Date: May 9, 2024

**Iowa Department of Natural Resources
Natural Resource Commission**

Decision Item (** indicates proposed consent item*)

***14. Public Land Management Projects**

14.1 Chapter 17 Barge Fleeting Lease Renewal - Mississippi River, Louisa County

The Natural Resource Commission is requested to approve the renewal of Chapter 17 Barge Fleeting Lease, No. 45-R, with Matteson Marine Service, Inc of Burlington, IA.

Location: The leased area is described as a portion of the Mississippi River bed including approximately 600 feet of frontage by 100 feet of depth located at Mississippi River Mile 427.7 in Louisa County, Iowa.

Site Purpose: This area has been under a barge fleeting lease since 1988. A Public Notice was printed in a local newspaper and no comments were received.

Lease Fee and Term: The annual fee is \$2,712.00 and will be increased annually based on the percentage increase of the consumer price index. The term of the lease will be five years.

14.2 Chapter 17 Barge Fleeting Lease Renewal - Mississippi River, Louisa County

The Natural Resource Commission is requested to approve the renewal of Chapter 17 Lease No. 102-R with Matteson Marine Service, Inc of Burlington, IA.

Location: The leased area is described as a portion of the Mississippi River bed including approximately 1600 feet of frontage by 175 feet of depth located at Mississippi River Mile 430.3 in Louisa County, Iowa.

Site Purpose: This area has been under a barge fleeting lease since 1988. A Public Notice was printed in a local newspaper and no comments were received.

Lease Fee and Term: The annual fee is \$12,656.00 and will be increased annually based on the percentage increase of the consumer price index. The term of the lease will be five years.

14.3 Management Agreement Renewal, Middle Raccoon River Access – Guthrie County Conservation Board

The Natural Resource Commission is requested to approve a Management Agreement renewal with the Guthrie County Conservation Board for the Middle Raccoon River Access located in Guthrie County.

Location: This property is located 3 miles west of Linden in Section 15, Township 79 North, Range 30 West of the 5th P.M. in Guthrie County, Iowa. This access is within the Middle Raccoon WMA.

Site Purpose: This 1-acre property has a boat ramp that is used for boat access to the Middle Raccoon River.

Management History: This property has been under a management agreement with Guthrie County Conservation Board since 1999. The previous Management agreement expired December 2023.

Management Agreement Term: 25 years

This agreement was approved by the Guthrie County Conservation Board on April 10, 2024.

14.4 Management Agreement, Wood Duck Bottoms WMA – Linn County Conservation Board

The Natural Resource Commission is requested to approve the Management Agreement with the Linn County Conservation Board for Wood Duck Bottoms Wildlife Management Area located in Linn County.

Location: This property is located 4 miles south of Center Point and 2 miles east of Pleasant Creek State Park in Section 24, Township 85 North, Range 8 West of the 5th P.M. in Linn County, Iowa. This small parcel is adjacent to a 138 Linn County WMA.

Site Purpose: This 10-acre property is used for public access to hunting and other outdoor recreation activities.

Management History: This property has historically been managed by the DNR. Linn County recently purchased a 138-acre adjacent property making the County's management of the WMA sensible.

Management Agreement Term: 25 years

This agreement was approved by the Linn County Conservation Board on February 26, 2024.

14.5 Flowage Easement – Jared and Jennie Randles – Coal Creek Marsh, Warren County

The Natural Resource Commission is requested to approve the acquisition of a permanent flowage easement from Jared and Jennie Randles to the DNR as part of the creation of Coal Creek Marsh at Red Rock Lake, Warren County, Iowa.

Project Description: The DNR is constructing a water control structure across Coal Creek, north of HWY 5, to create a marsh for waterfowl habitat. The marsh is expected to be dry in the spring and summer and will be filled by Coal Creek at or below 762 feet above mean seal level (msl) to create an 800-acre wetland for migrating waterfowl in the fall.

The 1.23-acre permanent flowage easement will allow for the flooding portions of the Randles' property when the marsh is at capacity.

Compensation: \$7,500

14.6 Property Conveyance – Springbrook WMA - Guthrie Co. - Fidler

The Natural Resource Commission is requested to approve a property conveyance (Quit Claim issuance) located at Springbrook WMA, Guthrie County.

Grantee: Deanna L Fidler and Ricky D. Fidler

Acreage: 0.537 acres

The Springbrook Wildlife Management Area, containing approximately 563 acres, is located 10 miles northwest of Panora in Guthrie County. In 1998 the state acquired this 563-acre parcel from Central Iowa Energy Company. At the time of the purchase, the adjacent property was owned by Roy Middleton. A boundary fence was in place and observed as the correct boundary by all parties. Additionally, a garage, a portion of a house and a driveway existed on what turned out to be part of the property acquired by the State of Iowa / DNR. For the past 26 years the fence has been assumed to be the correct boundary. In 2020, the property was transferred from the Roy Middleton Estate to his daughter Deanna (Middleton) Fidler. Ms. Fidler is currently trying to sell their property and during their title examination process, this boundary issue was discovered.

This Quit Claim Deed would move the State's ownership to the fence that is currently recognized as the state boundary.

The state has the ability to issue a Quit Claim Deed per Iowa Code Chapter 9G.10 – Quitclaim deeds. "Whenever the governor is satisfied by proper record evidence that any tract of land which may have been deeded by virtue of any donation or sale to the state is not the land intended to have been described, and that an error has been committed in making out the transfers, in order that such error may be corrected, the governor is authorized to quitclaim the same to the proper owner thereof, and to receive a deed or deeds for the lands intended to have been deeded to the state originally."

NRC Meeting Date: May 9, 2024

Iowa Department of Natural Resources
Natural Resource Commission

Decision Item (*indicates proposed consent item)

***15. Contract with Stantec Consulting Services, Inc.**

Commission approval is requested for a contract with Stantec Consulting Services, Inc., of Independence, Iowa.

Contract Terms

Amount: Not to exceed \$48,000

Dates: May 9, 2024 to May 1, 2026

Funding Source(s): Federal Grant (Cooperative Endangered Species Conservation Fund Section 6 of the Endangered Species Act)

Contract Purpose: The purpose of the contract is to conduct a study to assess the current status of the Upper Wapsi population of eastern massasauga rattlesnake (*Sistrurus catenatus*; EMR), its habitat use and availability, and risks to the species. The EMR was listed by the U.S. Fish and Wildlife Service (USFWS) as a threatened species under the Endangered Species Act in October 2016. Recovery of the EMR is reliant upon conservation partners implementing actions intending to address populations declines and increase knowledge/understand of the species as described in the *Recovery Plan for Eastern Massasauga Rattlesnake*.

There is a need for the Department of Natural Resources (DNR) to collect EMR population information in order to effectively plan for and implement actions important for species recovery in Iowa. Understanding the current status of EMR, knowledge of its habitat use and availability, and risks to the species, are important considerations for developing management plans to implement effective conservation actions focused on recovery in the state. This study will monitor one of the only two known remaining populations in Iowa for comparisons with the work done in the early 2000s by the same consultant. The DNR intends to use this information for conservation and management planning.

Contract tasks include:

- A telemetry study monitoring up to five EMR through the use of radio telemetry to collect microhabitat and snake activity information. Radio-tagged specimens will be tracked throughout the 2024 active season until they enter hibernation. Radio tracking will begin again early in spring of 2025 in an attempt to determine when the snakes emerge from hibernation.
- Habitat assessment to assess summer and winter habitat conditions and evaluate habitat quality within activity range and surrounding areas.
- Risk assessment to identify and evaluate potential risks to the population.

Selection Process Summary: The Department solicited proposals from targeted small businesses and also published a Request for Proposal (RFP) on the Department of Administrative Services website.

Criteria Reviewed: Criteria reviewed for this work included the service provider's capacity to complete the statement of work as described in the RFP, the proposed work plan and time frame for completing the project, past performance of work identical or similar to the project, demonstration of expertise, additional services/deliverables outside the require obligations of the scope of work that support successful completion of the workplan as well as thoroughness of the technical aspects of proposal, and cost. The service provider was required to have the federal permit necessary for conducting EMR surveys.

Proposal Due Date: April 10, 2024

of Proposals Received: 1

Recommendation: Stantec Consulting Services, Inc.

Travis Baker, Land and Waters Bureau Chief
Conservation and Recreation Division
NRC Meeting Date: May 9, 2024

Iowa Department of Natural Resources
Natural Resource Commission

Decision Item

16. Contract with Houston Engineering, Inc. (Lake Manawa Pipe Outlet)

Commission approval is requested for a contract with Houston Engineering, Inc., of Omaha, NE.

Contract Terms:

Amount: Not to exceed \$108,833.00

Dates: May 24, 2024 to December 31, 2025

Funding Source(s): Lake Restoration Program

Contract Background: Lake Manawa is a natural oxbow lake located within Council Bluffs, Iowa. Manawa is over 1,500 acres in size, and supports various forms of recreation, including fishing, paddle sports, power boating, and swimming. Much of the eastern shoreline is in private ownership.

In 1955, the Mosquito Creek diversion structure was constructed with the intent of providing a water source to the lake during dry periods. The diversion structure includes a roller dam on Mosquito Creek. Valves can be manipulated to divert water through an approximately 1.5 mile long, 48-inch diameter reinforced concrete pipe to the outlet point located on the eastern shore of Lake Manawa. According to historical documents, the last twenty feet of pipe is corrugated metal. Currently, a significant amount of flow is coming from the joint between the concrete pipe and the metal pipe due to a structural failure.

This project consists of replacing the corrugated metal pipe with a reinforced concrete pipe. The park and lake are one of western Iowa's premiere spots for outdoor activities and maintaining the water levels through the Mosquito Creek diversion pipe is important to the community and recreational users. This structure is critical piece of infrastructure used to maintain pool elevation in the Lake.

Contract Purpose: The DNR is entering into this Contract with Houston Engineering, Inc., an engineering consulting company, for the design for the replacement of the Mosquito Creek diversion pipe outlet.

The selected firm will prepare final designs, including drawings, specifications, and cost estimates. The firm will be responsible for conducting needed site surveys, investigations, prepare bid documents, addenda, answer pre-bid questions, conduct one on-site preconstruction meeting, and will also be retained during construction to assist with plan and construction clarification.

Selection Process Summary: The department solicited proposals from targeted small businesses and published a Request for Proposals (RFP) on the Department of Administrative Services website.

Proposal Due Date: 4/16/2024

Scoring Criteria: Proposals were scored based on the criteria as described in the RFP, which included their ability to complete the scope of work within the desired timeline, comprehensive work plan, description and quality of previous and applicable work experience, and cost.

Proposals Received: 1

Recommendation: Houston Engineering, Inc.
