Purpose and Summary

Proposed Chapter 46 describes the requirements for registration, renewal, operation, and accident reporting for all-terrain vehicles, off-road utility vehicles, and off-road motorcycles. The chapter also regulates dealers that sell off-highway vehicles and describes regulations for designated riding areas. This chapter has been reviewed and edited consistent with Executive Order 10.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Off-highway vehicle owners and off-highway vehicle dealers will bear minimal costs that are outweighed by the benefits of the rules.
 - Classes of persons that will benefit from the proposed rulemaking:
Citizens of Iowa, off-highway vehicle owners, off-highway vehicle dealers, and program partners and sponsors will benefit.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Regulated vehicle owners that choose to register will incur costs.
 - Qualitative description of impact:
The funds associated with the fees are utilized to develop and maintain designated riding areas and off-highway vehicle programs of the state.
3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:
Costs to the agency are minimal and limited to staff time. The Department administers the program and provides law enforcement at designated riding areas.
 - Anticipated effect on state revenues:

The proposed rules do not have any effect on state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs of the program are minimal to the State, and the benefits to regulated vehicle owners and citizens of Iowa are significant. The fees collected are used to develop and maintain designated riding areas and off-highway vehicle programs in the state.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No less costly methods exist for achieving the purpose of the proposed rulemaking. The rulemaking is streamlined to implement the program consistent with the Iowa Code.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department considered the use of a program guideline document in lieu of rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Oversight and processes in rule better protect the user-generated funding source and ensure that Iowa Code requirements are met.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This proposed rulemaking does not have any impact on small business.

DIVISION III
REGULATION OF DESIGNATED RIDING AREAS

571—46.22(321I) Definitions. In addition to the definitions in division I and division II of this chapter, the following definitions shall apply:

"Direct supervision" means the same as defined in Iowa Code section 321I.1.

"Local sponsor" means the entity that owns the designated riding area or is otherwise responsible for the

day-to-day operations of the designated riding area. A local sponsor may or may not be a unit of government.

“Operate” means the same as defined in Iowa Code section 321I.1.

571—46.23(321I) Designated riding areas.

46.23(1) Designated riding areas shall be considered to be public land, available and open to the public to use consistent with these rules.

46.23(2) The following areas are hereby established as designated riding areas:

- a. Bluff Creek OHV Park, Mahaska County.
- b. Lakeview OHV Park, Johnson County.
- c. Gypsum City OHV Park, Webster County.
- d. Nicholson-Ford OHV Park, Marshall County.
- e. Rathbun OHV Park, Appanoose County.

46.23(3) A local sponsor may request that the commission adopt the local sponsor’s riding area as a designated riding area by contacting the department in writing and providing information, as requested by the department, that demonstrates that the local sponsor’s proposed designated riding area meets the minimum qualifications described in these rules. All studies or surveys required by these rules shall be at the local sponsor’s expense. The department may require additional surveys or studies and conduct an on-site evaluation for each proposed designated riding area to determine whether the department should recommend that the commission adopt the proposed area as a designated riding area. The commission may adopt additional designated riding areas that meet the following minimum qualifications:

a. The site and plan for development and management is suitable for off-highway vehicle recreation. The department shall consider sites that were previously disturbed areas, such as agricultural lands, mining operations, road surfaces or other intensive land uses that have resulted in the elimination of high-quality natural areas, native plant communities, critical habitats and cultural resources.

b. There is demand for the proposed designated riding area. Consideration shall be given to nearby populations, distance to other OHV facilities, partnership possibilities and local support.

c. The local sponsor, through a letter of support, demonstrates a willingness and ability to maintain the proposed designated riding area consistent with these rules.

d. There is evidence that adjacent property owners, including those within the viewshed and within earshot of the proposed designated riding area, that exist at the time of establishment have been notified of the plan and their concerns have been addressed.

e. The proposed development and management of the proposed designated riding area comply with local, state or federal laws.

f. Any federal- or state-listed threatened or endangered species are identified and a plan to ensure that the development and management of the proposed designated riding area would not negatively impact those species is included.

g. Any cultural, historical or high-quality natural resources on the site are identified and a plan to ensure that the development and management of the proposed designated riding area would not negatively impact those resources is included. High-quality areas include those areas of high-quality native plant communities, highly restorable native plant communities or other areas which provide critical wildlife habitat. In addition, if a site contains fragments of high-quality areas, but has been determined by the commission as suitable for use as a designated riding area, the local sponsor shall include in the plan how it will protect and enhance those fragments.

46.23(4) Designated riding areas approved by the commission shall be subject to these rules and shall be managed according to the plan approved by the commission. Major modifications to the plan, including expansions, must be approved by the commission for the designated riding area to continue to be a recognized designated riding area under these rules.

571—46.24(321I) Department law enforcement at designated riding areas. A local sponsor may request that the department provide law enforcement and other management assistance and oversight at the designated riding area, including adjacent parking and unloading areas, and at camping areas if applicable. The department, in its

sole discretion, may provide such law enforcement and other management assistance and oversight it deems appropriate, provided that the local sponsor and the department enter into a written agreement describing what role and responsibilities the department shall have at the designated riding area and affording the department the right to terminate such agreement at any time, for any reason.

46.25(5) Safety equipment required. All operators and their passengers shall wear helmets while operating a regulated vehicle on a designated riding area, including parking and unloading areas. 571—46.28(321I) Operation with passengers.

46.28(1) Persons shall not operate regulated vehicles on designated riding areas with a passenger unless the regulated vehicle is designed and constructed according to the manufacturer's specifications to carry a passenger. Passengers shall not ride on regulated vehicles that have been modified from the manufacturer's original design and construction to carry a passenger.

46.28(2) A person shall not operate a regulated vehicle in a designated riding area with a passenger without possession of a valid driver's license as defined in Iowa Code section 321.1.

46.28(3) The number of passengers on a regulated vehicle in a designated riding area shall not exceed the manufacturer's capacity recommendation and shall not exceed the number of passenger restraints originally installed by the manufacturer.

46.29(3) Vehicles must be equipped with a roll-over protection system (ROPS) installed by the manufacturer.

46.29(4) Vehicles must be equipped with manufacturer seat belts or equivalent that are in good working order. The operator and all passengers must wear seat belts at all times the vehicle is in motion.

46.29(5) The operator and all passengers must keep their hands, arms, legs, and feet inside the vehicle at all times the vehicle is in motion.

46.29(6) The vehicle must be no wider than 65 inches.

571—46.30(321I) Youth operational areas. The local sponsor, or the department consistent with its relationship to the local sponsor under 571—46.53(321I), may establish areas for youth all-terrain vehicle and off-road motorcycle operation on designated riding areas; may restrict the age of the operator and the size of the all-terrain vehicle; may limit the engine displacement for both all-terrain vehicles and off-road motorcycles; and shall post such restrictions.

571—46.31(321I) Unlawful operation. A person shall not operate a regulated vehicle in any of the following instances:

46.31(1) At a rate of speed greater than reasonable or proper under all existing circumstances or greater than the posted speed, whichever is less. In no event shall a person operate any vehicle in a parking area of or adjacent to a designated riding area in excess of five miles per hour.
