

Put-And-Grow Wild Trout Streams

These streams are entirely on private property - you need permission from the landowner to fish them. Check a county plat book or internet based mapping program to find the landowner. A “W” in the fish species column represents a population of trout originating from natural reproduction in the stream, and “F” means the trout were stocked as fingerlings (2-inch long fish).

Stream	County	Nearest Town	Brown Trout	Brook Trout	Location (township, range, section)
Teeple Creek	Allamakee	Waukon	F		T97N, R6W, S11, 14, 24
