

# Suggested planting for Turkey Packet

- \* Gray Dogwood (6' staggered spacing between plants).
  - ↑ Pin Oak (8' staggered spacing between plants).
  -  Red Oak (8' staggered spacing between plants).
  - ♠ Bur Oak (16' staggered spacing between plants).
- Total area is 0.37 acres.

## DNR Forestry Wild Turkey Packet

Suggested layout for turkey woody habitat area. Spread dogwoods apart farther if needed. Bur oak plantings may be planted denser if thinning will occur later to create savannah habitat. Don't mix pin and red oak together, rather, separate with bur oak. Contact your local DNR biologist or forester for help.
