Very Important Information for Completing the Employment Record on Page 3

List your water or wastewater treatment work experience in detail **beginning** with your present or most current employment and continuing in reverse time order. If you have held two or more positions for the same plant or different levels of responsibility or with different duties, please list and describe them separately.

REMEMBER: The information you provide in “Duties” is used to determine your eligibility to take the examination. You must describe your job in great detail so that we can fairly and accurately evaluate your employment history. If you are a lab technician, mechanic, or electrician who worked in a treatment plant and was involved in some operation activities, specify the percentage of time involved in plant operation.

“Operator in Charge” mean person or persons on-site directly responsible for a plant or distribution system.

“Direct Responsible Charge” means, where shift operation is not required, accountability for and performance of active, daily, on-site operation of the plant, or of a major segment of a plant. Where shift operation is required, “direct responsible charge” (DRC) for operators means accountability for and performance of active, daily, on-site operation of an operating shift, or a major segment of the plant.

A city manager, superintendent of public works, city clerk, council member, business manager, or other administrative official is not deemed to have direct responsible charge of a system of facility or to be the operator in charge of a system or facility unless their duties include the active, daily on-site operation of the system or facility. (On-site operation may not necessarily mean full-time attendance at the plant or distribution system.)
