(renewing only)

☐ An existing operation which is expanding number of animals with
structural changes/modifications

For (must check one):

☐ An open feedlot

☐ A confinement operation

☐ A combined CAFO

¹ NPDES: National Pollutant Discharge Elimination System

² Open Feedlot: Unroofed or partially roofed area where livestock or poultry are confined for more than 45 days out of any 12-month period.

³ Confinement: Totally roofed area where livestock or poultry are confined for more than 45 days out of any 12-month period.

⁴ Combined: combined operation includes both of the other two definitions in items 2 & 3, above.

⁵ CAFO: Concentrated Animal Feeding Operation as defined in rule [567 IAC 65.100\(455B,459,459A\)](#). You must combine same type of animals in confinement buildings and open lot pens that are under common ownership or management. If the combined animal capacity meets the large CAFO or medium CAFO definitions, your operation is a CAFO. A CAFO also includes a designated CAFO.

E. Type and number of animals confined in the operation:

Enter both current and proposed number of all animals housed in confinement buildings and open lot pens that are under common ownership or management:

Animal Type	Confinement Buildings	Open Feedlot Pens		Total Confinement & Open Feedlot		
	Total No. Head [1]	Current Permitted No. Head [2]	Proposed No. Head [3]	Total No. Head [1]+[2]+[3]	x Factor	= AUC ⁶

Open Lot: _____
- ☐ Unformed manure or effluent storage structure- earthen basins, lagoons (total capacity in gallons) Confinement: _____
Open Lot: _____
- ☐ Dry manure stored in a building or hoop barn (total capacity in cubic feet) Confinement: _____
- ☐ Egg wash water storage structure (total capacity in gallons) Confinement: _____
- ☐ Alternative Technologies⁷ [total surface area of vegetative treatment areas (VTAs) or vegetative infiltration basins (VIBs)] Acres: _____

G. Name of the closest receiving watercourse if a discharge occurred: _____

⁶ **AUC:** Animal Unit Capacity as defined in rule [567 IAC 65.100\(455B, 459, 459A\)](#). You must combine animals in confinement buildings and open lot pens that are under common management or ownership.

⁷ AT Systems require extensive monitoring and reporting which will be required conditions in any NPDES permit. An application for a permit does not guarantee that a construction permit and NPDES permit will be granted or that any NPDES permit will be renewed.
