 Henry County, Iowa

Geode State Park 6K & 10K

40.825802, -91.391123

3333 Racine Ave; Danville, IA 52623

- Restrooms are available at the various shelters along the trail.

5K & 10K WALK DIRECTIONS

1. From Shelter 1, looking toward the lake, head left, you will be making a clockwise loop around the lake.

2. Find & follow the trail along until you come to the beach area. There is construction here.

3. Carefully continue to the other side of the beach area. You will find the Fallen Oak Interpretive trail at the edge of the woods.

4. Continue to follow the trail, at times it will come out into open area, cross the open areas and pick the trail back up on the other side.

5. If you are interested in a shorter walk (6K), when you come out at the opening for shelter 2, just past the beach. Turn around and follow the trail back, past shelter 1.

6. The 10K walk continues on the trail to shelter 3. Turn around and follow the trail back to shelter 1. (If you miss shelter 3, when you come to the road over the dam turn around, you gone too far.)

7. If you'd like an even longer walk, 12 - 13K, don't turn around and when you come to the dam, you will need to walk along the park road. Please use caution and walk against traffic.

8. Once across the dam, you'll pick the trail up again, follow this trail back to shelter 1.
