

Approved Courses for Continuing Education Units for Iowa Certified Groundwater Professionals 2022-2023

Documentation

Proof of participation will be required when submitting CEUs. A certificate of satisfactory completion issued by the course sponsor or instructor constitutes sufficient documentation of participation. Documentation is preferably submitted to the DNR at the completion of the course but can also be included with a biannual certification renewal application.

Course Approval

If you would like to take a course not on this list for CEUs, reach out to ustlicensing@dnr.iowa.gov with a course outline and course topic. If approved, the DNR will award 1 CEU for each hour in class. See GWP CEU Approval form on the DNR's [Groundwater Professional Online Bulletin Board](#). The DNR will consider webinars as valid CEUs if they pertain to the cleanup and assessment of leaking underground storage tanks in Iowa.
