**COVID REQUIREMENTS & PRECAUTIONS:**

- Temperatures will be checked when entering the building. Anyone with a temperature of 100.5 or greater will not be allowed to enter.
- All attendees must bring a mask with them. Masks will be required when entering and in common areas including lobbies and restrooms.
- Attendees will be seated with others from the same company at the same table and spaced at least 6 feet from other companies. Every effort will be made to provide social distance spacing during sessions; however, face coverings are recommended when social distancing cannot be maintained.
- Coffee WILL NOT be provided. There will be prepackaged snacks and drinks.

---

### **MEMBERSHIP BENEFITS**

**UNIFIED VOICE:** Provide a unified voice (lobby group) for Iowa contractors to become more involved in what is happening in the industry. We provide a forum for problem solving and discussion with other members of the tank and piping industry. To act as liaison for Federal, State and Municipal authorities to promote and develop safe and economically feasible regulatory standards for petroleum equipment systems within the State of Iowa.

**EDUCATION:** To develop continuing education training for the contractor and operator members in the petroleum industry to enhance public awareness of the safe operation and maintenance of petroleum equipment systems.

**ENVIRONMENTAL PRESERVATION:** To monitor and develop acceptable industry standards in relation to safeguarding of the environment from petroleum based contamination.
