

## CARROLL COUNTY SOLID WASTE MANAGEMENT COMMISSION ENVIRONMENTAL POLICY

By implementing and maintaining an Environmental Management System (EMS), Carroll County Solid Waste Management Commission is committed to an ongoing effort of promoting environmental responsibility as an organization as well as emphasizing a heightened environmental awareness to interested parties and stakeholders.

The Commission will demonstrate our commitment to this policy through:

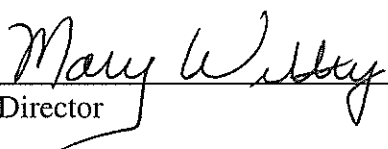

- Pollution Prevention – We will identify and prevent or minimize in areas attributed to our operations, wherever feasible.
- Regulatory Compliance – We will comply with all relevant environmental legislative, regulatory, permit and other requirements associated with our industry.
- Training – We will provide the tools to create awareness of the Commission's environmental impacts, protect health and safety, comply with rules and regulations, and support our environmental objectives.
- Education – We will provide education to our users regarding services and programs.
- Continual improvement – We will continue to seek out ways to improve our environmental performance using this policy as the basis for which we set our goals.

The Commission is dedicated to carrying out our environmental responsibilities in a cost effective manner that demonstrates true leadership in integrated solid waste management while continuing to provide the highest level of service.

We will work collaboratively with our customers and our communities on environmental issues. We will measure and review our progress annually and report the results to our stakeholders.
