

Environmental Management System (EMS) Industry Group Workshop
**“EMS In Depth: Objectives & Targets and
Environmental Management Programs”**

Developing Objectives & Targets Exercise and Networking

Exercise and Networking #1

- Your organization has recently identified its Significant Aspects and Impacts. See below (abridged version)
- Develop relevant Objectives & Targets for your organization and document them (write them down) on Attachment 1
- Use your creativity and imagination to be as detailed / specific as possible
- Remember to use your workshop material as a reference. In particular, consider the Characteristics of Strong Os & Ts and the Helpful Hints

Significant Aspects	Significant Impacts
Air Emissions	Degradation of Air Quality
Wastewater Discharges	Degradation of Water Quality
Waste Generation and Disposal	Degradation of Land Quality
Energy Usage	Depletion of Natural Resources
Water Usage	Depletion of Natural Resources

Attachment 1 – Exercise and Networking #1
