

INDUSTRIAL Production Wells

High Capacity Wells

What You Need to Know...

Iowa DNR Water Use and Allocation
Water Supply Engineering
Wallace State Office Building
502 E 9th St
Des Moines, Iowa 50319

Industrial Production Wells?

- ? WILL you be pumping at or above 500 Gallons per Minute (gpm)?
- ? ARE there nearby Private Wells, Other High Capacity Wells or Industrial Wells?

Know your well's geology, aquifers & water-bearing formations:

- ✚ Bedrock - dolomite, limestone, sandstone
- ✚ Alluvial or Buried sands and gravel
- ✚ Protected aquifers such as:
 - Jordan Sandstone (Ordovician)*
 - Devonian Limestone*
 - Silurian Dolomite*
 - Dakota Sandstone (Cretaceous)*

Perform Hydro Geologic Review Well Forecast

WHY is this IMPORTANT?

- ... Protect your well
- ... Protect your neighbor's well
- ... Protect Iowa's Ground Water

To Obtain a Water Use Permit for a High Capacity Well

- ✓ Provide map of proposed irrigation well site
- ✓ Provide map inventory of wells and well construction details within a 1 mile radius
- ✓ Contact us prior or during construction for pump testing guidance based upon your geological setting
- ✓ Submit results of any required pump testing – including production well and observation well(s)

Figure 2. Graph showing the different phases of a constant rate pumping test – the pumping phase and the recovery phase.

What Permits do you need?

County Private Well Construction Permit

☎ Your local Iowa Certified Well Driller
