

## Campsite Attribute Explanation

### Camper Version

The following depicts how to choose the appropriate campsite from the site details.

#### Modern vs Non Modern Campgrounds

Each campsite will have either Modern or Non Modern identified in the site details.

##### **Modern**

- Means a camping area that has showers and flush toilets.
- These campgrounds may or may not have electrical campsites and full hookup campsites.

##### **Non Modern**

- Means a camping area in which no showers are provided, containing only pit-type latrines or flush-type toilets.
- Water may or may not be available to campers in a nonmodern camping area.

#### Number of Camping Units

- One basic camping unit (this could be a tent, RV, travel trailer, van etc.). is allowed per site except that a small tent or hammock may be placed on a site with the basic unit.
  - The area occupied by the small tent shall be no more than eight feet by ten feet and the tent shall hold no more than four people.

#### Site Types

This is found in the SITE LIST tab. The following lists the different types of sites and what primary equipment is allowed on the site.

Primary equipment information is found in the Looking For Category within the Site Details. When doing a search the Looking For Category can help narrow down your search results. As seen below in the Red box. The site types listed below will show what looking for category it will be listed under.
