Site No	Site Name	County	T	R	S	Q	Latitude	Longitude	Wetland Type
1	Fort Des Moines Park	Polk	78N	24W	34		41.5161900	-93.6086400	Permanent Open Water
	Description:	The park entrance is off SE 5th Street. Enter the park and take the first left. That will lead you to the parking lot for Shelter 1 and the boat ramp. Park near the boat ramp, step out of your car and listen.							
2	Blank Park Golf Course	Polk	78N	24W	33		41.5127660	-93.6235910	Permanent Open Water
	Description:	Park at the clubhouse parking lot near the intersection of SW 9th Street and County Line Road. Walk to the pond behind the clubhouse near the 18th hole. Stand at the north end of the pond on the paved golf cart trail.							
3	Lighthouse Community Church	Polk	78N	24W	36		41.5147900	-93.5764400	Permanent Open Water
	Description:	The church address is 7705 Indianola Avenue. The pond is behind the church and is accessed from the northside parking lot. Drive to the back corner of the parking lot closest to the church. The survey can be done from the nearby sidewalk.							
4	Magnolia Creek at E. Payton	Polk	78N	23W	30		41.5297160	-93.5546620	Open Riverine
	Description:	Parking exists on both sides of E. Payton Avenue where Magnolia Creek passes through a culvert under the road and continues to Easter Lake. At night it would be better to park on the north side of E. Payton Avenue because the designated roadside parking is about 2' wider than the south side parking. You can stand on the northside sidewalk to do the survey.							
5	Ewing Park Yeader Creek bridge	Polk	78N	24W	23		41.5417680	-93.5852020	Timbered Riverine
	Description:	At 4660 Indianola Avenue is the parking lot for Ewing Dog Park. Park at the west end of this lot. Walk to the pedestrian bridge over Yeader Creek which is a few yards south of the parking lot. (You might stop at the parking before you enter your car to see if you hear other frogs along Yeader Creek. The toads were so loud, we couldn't hear the other frogs until we walked away from the bridge.)							
6	Pond De Easter	Polk	78N	24W	25		41.5368790	-93.5661470	Permanent Open Water
