NEW FEATURE for Your Next Title V Semi-Annual Monitoring Report!

The DNR now offers electronic air compliance reporting via the [Air Quality Records and Reporting \(AQRR\) Compliance Reporting System](#). AQRR is a web-based application which allows industry to electronically sign and submit compliance reports to the DNR while utilizing your current forms in PDF format.

- Forms submitted in AQRR do not require a wet ink signature. AQRR eliminates the requirement to have a wet ink signature by utilizing an EPA approved electronic certification and signature.
- A single submission in AQRR Compliance Reporting will satisfy the requirement to mail separate reports to the Air Quality Bureau and the DNR Field Office.

[What types of compliance reports does AQRR accept?](#)

Facilities can currently use AQRR to electronically sign and submit the following compliance reports:

- National Emissions Standards for Hazardous Air Pollutant (NESHAP) reports, including annual, semi-annual, and quarterly reports required under 40 CFR 63 Subparts, (ex: 4Z “RICE”, 6X, MON).
- New Source Performance Standards (NSPS) reports, including annual, semi-annual, and quarterly reports required under 40 CFR 60 Subparts, (ex: VV/VVa “LDAR”, Dc Fuel Oil-Fired Boiler Reports)
- Continuous Emissions Monitoring/Continuous Opacity Monitoring (CEMS/COMS quarterly reports)
- Title V Annual Compliance Certifications (TV ACC), and
- Title V Semi-Annual Monitoring Reports (TV SAMR).

Stack test protocols and reports may not be submitted electronically.

[Where can I get assistance in using AQRR?](#)

You can find links to AQRR and other DNR Air Quality electronic services on the [eAirServices webpage](#). Questions may be directed to the AQRR helpdesk AQRR@dnr.iowa.gov or Julie Ritter at (515) 669-8474 or Julie.Ritter@dnr.iowa.gov. Detailed instructions on how to log in to AQRR are available in the [AQRR – Compliance Reporting Public User Guide](#).
