Office: (515) 402-8763

Website: www.iowareap.com

TO: Governor Kim Reynolds
W. Charles Smithson, Secretary of the Senate
Meghan Nelson, Chief Clerk of the House
Margo Underwood, Chair of the Natural Resource Commission

As required by Section 455A.17, Code of Iowa, I present you with the report of the 2020 Resource Enhancement and Protection (REAP) Congress which was conducted on January 4th in the chambers of the House of Representatives.

Eighty-six of the ninety delegates to the REAP Congress attended. Those delegates were elected by 611 lowans in the fall during the 18 regional Assemblies conducted throughout the state. More than half of the delegates were attending for the first time, echoing the enthusiasm for REAP seen across the state.

lowans strongly believe that REAP can be one of the state's most important tools to stimulate economic development, improve health and their quality of life. The 2020 REAP Congress took a number of actions in this regard.

Chief among these actions are to fully fund REAP at a minimum of \$20 million, retain the current formula for distribution of the REAP funds, and eliminate the REAP sunset date.

REAP is recognized as Iowa's primary local funding program for natural, educational and cultural resources. The large amount of public participation, culminating in actions by the REAP Congress, makes it truly a grassroots led program. The delegates thank you for the support you have given and request that you continue to support REAP in the future.

Sincerely,

Kayla Lyon, Director

Iowa Department of Natural Resources

2020 REAP Congress January 4, 2020 House of Representatives Chambers

Roll Call

86 of the 90 delegates to the REAP Congress attended. The delegates were elected by 611 lowans in the fall of 2019 during 18 regional Assemblies conducted throughout the state. A list of the delegates by county is included at the end of this report.

Opening Remarks

Tammie Krausman, REAP Coordinator, called the Congress to order at 10:00 a.m. and prepared them for their deliberations. DNR Director, Kayla Lyon, gave welcoming remarks.

Election of Congress Chair

Mark Ackelson of Polk County was elected.

2019 REAP Assembly Report

During November and December 2019, 18 Resource Enhancement and Protection (REAP) Assemblies were conducted throughout Iowa. The REAP Assemblies are required, per Iowa Code Chapter 455A.17, to be conducted on odd numbered years to provide attendees with information about REAP expenditures, ask attendees to identify opportunities or changes in policy, programs or funding, and to vote on motions for the five elected delegates per region to vote on at REAP Congress. 611 Iowans participated in the 2019 REAP Assemblies. In addition to electing delegates, the participants made 64 motions that were forwarded to the REAP Congress for consideration on January 4, 2020.

Individual Assembly Reports, including specific information addressed in each of the 18 Assemblies are included at the end of this report.

Action Items by REAP Congress

- **1. Motion:** The 2020 REAP Congress recommends the elimination of the sunset date for REAP. Marlatt, moved. Golightly, second. Vote: Yes: 86, No: 0. Motion carried.
 - a. Discussion: Eliminate compared to extend the date. The sunset is tied to appropriation to REAP, if eliminated it may be set at \$20M forever. If it becomes part of the NRORTF, no other programs have sunset clauses in that fund.
- **2. Motion**: The 2020 REAP Congress recommends fully funding REAP at a minimum of \$20 million. Cohen, moved. Benton, second. Vote: Yes: 86 No: 0. Motion carried.
 - a. Discussion: Source of funding, history of funding. Intent to set a baseline for funding for the future. \$20M hasn't been met.
- 3. Motion: The 2020 REAP Congress recommends funding REAP at \$40 million continually adjusting for inflation. Malik, moved. Sergeant, second. Vote: Yes: 12, No: 74. Motion failed.
 - a. Discussion: Limit to \$40 minimum, which is closer to what \$20 Million is in today's dollars. Original REAP was \$30M for 10 years.
 - b. Amendment: **The 2020 REAP Congress recommends funding REAP at \$40 million**. McCarley, Haake 2nd. Vote: Yes: 6 No: 80. Motion failed.
 - i. Discussion: want to ask for something reasonable. Hasn't yet been fully funded. Focus efforts on getting \$20 million.
- **4. Motion**: The 2020 REAP Congress recommends to retain the current REAP formula. Benton, moved. Slocum, second. Vote: Yes: 85, No: 0. Abs: 1 Motion carried.
 - a. Discussion: why the current formula works, support for public land.

- 5. Motion: The 2020 REAP Congress recommends increasing the sales tax 3/8 of one cent to fund the Iowa NRORTF. Hayes, moved. Hammond, second. Vote: Yes: 84, No: 0 abs: 2 Motion carried.
 - a. Discussion: Creation of NRORTF, many programs have not been fully funded, this fund would provide long term funding, specific funding for programs in the constitutional amendment.
- **6. Motion**: The 2018 REAP Congress recommends retaining the current formula for NRORTF. Barker, moved. Kruse, second. Vote: Yes: 84, No: 1. Abs: 1 Motion carried.
 - a. Discussion: How the fund works, clarification that REAP is not included in the constitutional language.
- 7. Motion: The 2020 REAP Congress recommends increasing the number of categories to five for the REAP City Parks and Open Space grant program. The categories would be based on city population of <2000, 2000-10,000, 10,000-20,000, 20,000-75,000, >75,000. Bowers, moved. Benton, second. Motion replaced, see below.
 - a. Discussion: Large competition for funds, disadvantage to smaller cities, information and research on levels, by dividing into too many categories may not fund the best projects, not sure on category size, would the percentage allocated to each category change.
 - b. Amendment: The 2020 REAP Congress recommends that the Natural Resources Commission evaluate and adjust categories and funding levels to reflect current city population and funding demands. Kruse moved, Bowers 2nd. Vote: Yes: 83, No: 3. Abs: 0 Motion carried/replaced.
 - i. Discussion: smaller cities competition, maximum requests in Administrative Rule, only addresses cities and not counties, issues in smaller cities, counties.
- **8. Motion**: The 2020 REAP Congress recommends changing CEP from \$350,000 to \$500,000. Haake, moved. Marburger, second. Vote: Yes: 22, No: 64. Motion failed.
 - a. Discussion: Opening up the code for changes, limits amount for the rest of the portions in REAP, would increase with inflation.
- **9. Motion**: The 2020 REAP Congress endorse the Nutrient Reduction Strategy Program. Schabuch, moved. Ritscher, second. Vote: Yes: 15, No: 70. Abs: 1. Motion failed.
 - a. Discussion: What the NRS is/does, whether or not it is REAP Congress' job to discuss this program, supporting NRORTF includes supporting NRS.
- **10. Motion**: The 2020 REAP Congress recommends keeping REAP as a separate appropriation in addition to any funding received from the NRORTF. McCarley, moved. Johnson, second. Vote: Yes: 84, No: 2. Abs: 0. Motion carried.
 - a. Discussion: how the NRORTF is outlined in code.
- **11. Motion**: The 2020 REAP Congress recommends restoring funding to \$30 Million. McCarley, moved. Malik, second. Vote: Yes: 6, No: 79. Abs: 2. Motion failed.
 - a. Discussion: giving a specific target to the Legislature.
- **12. Motion**: The 2020 REAP Congress thanks the Legislature and Governor for the support of REAP for the past two years. Benton, moved. Hammond, second. Vote: Yes: 83, No: 1. Abs: 2. Motion carried.
- **13.** Other discussion:
 - a. Educate others about REAP, people do not know what it is.
 - b. Point made to talk to legislators, not just local legislators, but all.
 - c. Use stories about projects that have not gotten funded, but also focus on successes and completed projects, smaller communities.
- 14. Motion: Adjourn. Marlatt, moved. 2nd unanimous.
 - a. 15th REAP Congress Adjourned on January 4, 2020 at 2:00 P.M.

2019 REAP Assembly Report

During the November and December 2019, 18 Resource Enhancement and Protection (REAP) Assemblies were conducted throughout Iowa. The REAP Assemblies are required, per Iowa Code Chapter 455A.17, to be conducted on odd numbered years to provide attendees with information about REAP expenditures, ask attendees to identify opportunities or changes in policy, programs or funding, vote on motions for the five elected delegates per region to vote on at REAP Congress. 611 Iowans participated in the 2019 REAP Assemblies. In addition to electing delegates, the participants made 77 motions that will be forwarded to the REAP Congress for consideration on January 4, 2020.

The following motions were approved at the Assemblies. The number behind the motion indicates the number of Assemblies at which it was approved. Bolded items were approved at 10 or more Assemblies.

- 1. This REAP Assembly recommends that the 2020 REAP Congress supports fully funding REAP at \$20 Million. 14
- 2. This REAP Assembly recommends that the 2020 REAP Congress supports fully funding REAP at \$30 Million. 2
- 3. This REAP Assembly recommends that the 2020 REAP Congress supports keeping the REAP formula the same. 14
- 4. This REAP Assembly recommends that the 2020 REAP Congress supports fully funding the Natural Resources and Outdoor Recreation Trust Fund through the passage of a 3/8th of a percent increase of Iowa's statewide sales tax. 10
- 5. This REAP Assembly recommends that the 2020 REAP Congress recommends keeping the IWILL formula the same as 2010. **4**
- 6. This REAP Assembly recommends that the 2020 REAP Congress supports fully funding the Natural Resources and Outdoor Recreation Trust Fund through the passage of a 3/8th of a percent increase of Iowa's statewide sales tax, including keeping the current formula intact, including fully funding REAP. **6**
- 7. This REAP Assembly recommends that the 2020 REAP Congress support extending the REAP sunset to the year 2041, unless IWILL is fully funded with REAP in its existing form within the currently set IWILL formula. 1
- 8. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding IWILL and not replace any current natural resources funding. 2
- 9. This REAP Assembly recommends that the 2020 REAP Congress supports eliminating the REAP sunset date. 13
- 10. This REAP Assembly recommends that the 2020 REAP Congress supports extending REAP for 30 years beyond the 2021 sunset date. **3**
- 11. This REAP Assembly recommends that the 2020 REAP Congress recommends continuing REAP for 50 more years.

 1
- 12. This REAP Assembly recommends that the 2020 REAP Congress recommends extending REAP language for at least 15 years. 1
- 13. This REAP Assembly recommends that the 2020 REAP Congress recommends that the REAP sunset be extended to 2036. **1**
- 14. This REAP Assembly recommends that the 2020 REAP Congress recommends increasing the program authorization to \$40 Million to account for inflation for the past 30 years. **1**
- 15. This REAP Assembly recommends that the 2020 REAP Congress recommend that funding and support of Watershed Management Authority and Coordinators in the state. 1
- 16. This REAP Assembly recommends that the 2020 REAP Congress recognizes the value of outdoor recreation in Iowa. **1**
- 17. This REAP Assembly recommends that the 2020 REAP Congress recommends that the Legislature look at additional funding sources, other than gaming revenue. **1**
- 18. This REAP Assembly recommends that the 2020 REAP Congress recommends allowing cities, county conservation boards, state and non-profits to be able to acquire land in Open Spaces for the people of Iowa to maintain a quality of life. Public land is very important to Region 8. 1
- 19. This REAP Assembly recommends that the 2020 REAP Congress recommends forming four city categories with input from smaller towns. 1

- 20. This REAP Assembly recommends that the 2020 REAP Congress recommends that the DNR works with County Conservation Boards to identify environmentally sensitive areas of the state. **1**
- 21. This REAP Assembly recommends that the 2020 REAP Congress recommends that conservation education funds be increased and remain taken off the top. 1

Additionally, participants at each assembly broke into small groups to discuss the most significant things REAP has done in their communities, positive and negative impacts and then a vision for the next five years. They listed and discussed hundreds of ideas, recommendations and impacts. They are listed by region in the Assembly Summary later in this document.

Below is a list of the most prevalent themes:

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP ha	s done and why are these importa	ant to the place you live and the s	state?
 Quality of life Economic development for communities/workforce Trails New & improved facilities (campgrounds, parks) Places to go, things to do Health (mental/physical) Provides new and enhanced access (hunting, fishing, wildlife watching, recreation) Diversity in recreational experience: communities can play to their strength (river, lake, forest, history, etc.) 	 Nature Centers (supplies, displays, staff) Materials for classrooms statewide/electronic Connecting NGSS/CORE standards, transferable curriculum development Programs available to the public Interpretive signage Enables groups to collaborate Engaging lowans of all ages Dedicated funding to each county for staff and programming Knowing exactly what is funded 	 Digitize newspapers, historic photos, documents Building restoration Revitalizing downtowns Economic impact/tourism Retaining community identity Leveraging of funds Matching use of volunteer time, adds number of people involved in projects/organizations Museums, document preservation and historic areas 	 Improving water quality/nutrient reduction Buffer strips, bioreactors, wind breaks, cover crops, etc. Urban conservation Awareness to water quality Grant match dollars for rural Restoration/habitat improvement, threatened & endangered species Project Coordinators help carry out the projects
Positive and negative impacts o	f REAP projects in your communit	:y?	
Increase in tourism to region. Leverages funds Attracts businesses Negative Competitive funding Ease to find areas/match projects Failure to promote No funding for maintenance Scoring criteria/selection	Positive Travelling exhibits Nature Centers (staff, programming, building, displays, et. al.) Available locally Negative Not enough funds to reach kids, because busing costs Competitive funding Reliance on funds that change	Positive • More public access to digital records/information • Lots of visitors to sites • Funds large & small projects Negative • Can't save everything • Belief that "free money" still exists • Competitive	Positive Improved soil health for future generations Improved quality of life Knowledgeable staff at the local level Negative Competition Not enough money Changing land use
Vision for next 5 years: changes	or eliminations?	L	
 More funding (fund IWILL, REAP, etc.) More education of Iowans & legislators about REAP Fishing jetties, trails, wetland development, campground, water trails 	 More funding (fund IWILL, REAP, etc.) Expand existing efforts Target audiences: younger ages and landowners Community support with schools & other groups 	 More funding (fund IWILL, REAP, etc.) Need to engage communities Cemetery restoration & repair Identify, map, signage for 	 More funding (fund IWILI REAP, etc.) Additional habitat on bot public and private areas Promote benefits of practices Promote greater

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
 Trail connectivity, expansion & maintenance Recreational shooting Share successful projects - more outreach 	Need to reach public (boards, schools, non- profits, parents) as to what is available	 one-room schools Better knowledge for counties/communities about program 	awareness of REAPExpand practices available to farmers

Individual Assembly Summary

Region 1: Calmar (Allamakee, Clayton, Fayette, Howard, Winneshiek)

Attendance: 59 Chair: Mallory Boshart Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress supports keep the REAP formula the same. Vote: Unanimous
- 2. This REAP Assembly recommends that the 2020 REAP Congress support extending the REAP sunset to the year 2041, unless IWILL is fully funded with REAP in its existing form within the currently set IWILL formula. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress support fully funding REAP at \$20 Million. Vote: Unanimous.
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommend that funding and support of Watershed Management Authority and Coordinators in the state. Vote: Unanimous.

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP has	s done and why are these import	ant to the place you live and the	state?
 Acquisition for trails Improve soil and water Better recreation More outdoor recreation More public support Increased community health Trail access Increase in natural trout reproduction Huge economic impact Highlights special places Improved impaired waters Creates common groundorganizations working together 	 2nd step education Ability to bundle conservation emphasis with educational studies Expansion of programs 	 Clock tower Structure Preservation Story documentation Maintenance of Native American mounds Tourism Education sites 	Watershed approach Land acquisition Project funding Better outdoor recreation (trout streams) Better quality of life
Positive and negative impacts of	f REAP projects in your communi	ty?	•
Positive: • Winneshiek-30 miles of paved road Negative: • Strings attached with land acquisition • Lack of motorized usage • Funding perpetually short	Negative: • Paperwork is a barrier along with evaluation, flexibility and outcome measures	Positive: Provides money to help with projects Negative: Need more money for REAP	Positive: • Education • Increased energy around natural resources due to education Negative: • Not enough money • Increase herbicide usage • Money will end if not

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
			reauthorized
Vision for next 5 years: changes	or eliminations?		
 Fully fund REAP Keep formula the same Find out where the biggest needs are Supplement IWILL- leave REAP unchanged Focus on regional projects 	 Expand sustainable agriculture Expand practical education Include funds for pre-K Work toward making conservation education more meaningful to everyone 	 Work on saving structures Preserve more historical areas and artifacts Identify and inventory what is needed to save Funding to help recruit Expand REAP to its fullest Fund documented cemeteries 13% of IWILL to be designated to REAP 	 Fully fund REAP Portion of money reserved for new practices and techniques Easier to use programflexible

Region 2: Ventura (Cerro Gordo, Floyd, Franklin, Hancock, Kossuth, Mitchell, Winnebago, Worth)

Attendance: 16 Chair: Jeff Jensen Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress support fully funding REAP at \$30 Million. Vote: Unanimous.
- 2. This REAP Assembly recommends that the 2020 REAP Congress supports keep the REAP formula the same. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress supports eliminating the sunset on REAP. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends passing IWILL. Vote: Unanimous
- 5. This REAP Assembly recommends that the 2020 REAP Congress recommends keeping the IWILL formula the same as 2010. Vote: Unanimous.
- 6. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding IWILL and not have that replace any current natural resources funding. Vote: Unanimous
- 7. This REAP Assembly recommends that the 2020 REAP Congress recognizes the value of outdoor recreation in Iowa. Vote: Unanimous

 Bike trails Natural area restoration City parks Nature trails REAP brings public to nature 	 Roadside/Ditch plantings Land acquisition Nature centers-supplies, displays, visuals Program development High school and college internships Children w/o access go to parks and historical bldg 	 Rehabilitation of historic buildings for re-use Promotes planning for projects to know whether it is worthy of investment 	 Helps with water quality and quantity Soil health is part of land use and land values Steady, sustainable funding Habitat restoration More native vegetation
Positive and negative impacts of	of REAP projects in your communit	ty?	
Positive: Better quality of life Diverse rec opportunities	Negative: Not fully funded Positive:	 Requires matching funds- more people working for common goals 	Positive: Access points Change REAP funding pie

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
 Improved health and wellness Keeps retirees in lowa Brings revenue to local area Increased community REAP benefits all of the public Recruit and keep young people in local towns/state of lowa Negative: Needs more money 	 Community education Educators understand DNR better Land acquisition 	Sometimes matching funds are hard to find	to sustain WMA's Negative: Competition puts neighbors against each other
Vision for next 5 years: changes	or eliminations?		
 Don't change the formula REAP needs more visibility 	 Fully fund REAP Get more children in nature Increase awareness of REAP in community Increase conservation education funding Include Cons Ed in other parts of pie 	 Encourage libraries to utilize REAP to preserve local history Keep formula the same Fully fund REAP 	 Fully fund REAP More public land Blend public conservation with private lands

Region 8: Maquoketa (Cedar, Clinton, Delaware, Dubuque, Jackson)

Attendance: 64 Chair: Dave Haier Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP. Vote: Unanimous
- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends that the Legislature look at additional funding sources, other than gaming revenue. Vote: 63 Yea, 1 No
- 3. This REAP Assembly recommends that the 2020 REAP Congress recommends continuing funding beyond the sunset and make the program permanent. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends that the legislature raise the sales tax to fund IWILL the way the people voted for it, including fully funding REAP. Vote: Unanimous
- 5. This REAP Assembly recommends that the 2020 REAP Congress recommends allowing cities, county conservation boards, state and non-profits to be able to acquire land in Open Spaces for the people of Iowa to maintain a quality of life. Public land is very important to Region 8. Vote: Unanimous

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP ha	s done and why are these importa	ant to the place you live and the s	tate?
 Acquired property Trail system development Update parks and amenities Better access to rivers for recreational use Tourism 	 Kick started EE programs, county naturalists Curriculum is transferable among projects Nature centers Increase quality of lifemore open spaces to play 	 Easy application and reporting Necessary function Projects wouldn't happen without REAP funding 	 Land acquisition-protect land Buffers-river waterwayhelps with water quality Cover crops & soil protection Watershed work-urban

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
 Attracts workforce Keeps money local Increase the quality of life for residents Free rec to all demographics Health Use of land that isn't good for ag 			pavers Only fund that supports on- going stewardship of existing land
	of REAP projects in your communi	ty?	
Positive: Preserve natural areas Acquisition of property in natural state More public access (Bankston Park) Provides more habitat Improve brain health Relieves crowding Connecting via trails Draw workforce Negative: Not fully funded More apps than can be funded Concerns of neighbors Have not funded IWILL Needs better marketing and promotion Competition for the limited resources Some don't want more public land- understanding of benefits and economic benefits would help	Positive: ID guides through IRUM Great impacts on community Broad and varied projects Negative: Not enough money Broad and varied projects	Positive: Funding process is a little less formal Projects are well received Requires match Negative: Not enough money	Positive: Coldwater streams White water canyon Public awareness Water & soil practices installed through REAP Access points Negative: Competition puts neighbors against each other
Vision for next 5 years: changes	or eliminations?		
 Division of funds is good Fully fund REAP Lift the sunset REAP is unique in US Needs to stay in place so we don't go backward No match is important More info on what can be useful for public outreach Promotion of recruitment of workforce Water quantity and quality issues Don't replace REAP with IWILL, need both! 	Continue to expand opportunities for teachers and pre- teachers to experience EE	 Help with developing curriculum Engaging youth in historic programs (hands-on activities) Maintaining what has been restored 	 Every part of REAP should continue More money Fund IWILL Long-term continuance of water quality Promote and expand water quality projects and spread to new landowners Change REAP funding pie to sustain WMA's

Region 9: Muscatine (Muscatine, Scott)

Attendance: 27 Chair: Roger Kean Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP and do not let it sunset. Vote: Unanimous
- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends moving forward with the % cent sales tax increase for IWILL. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress recommends keeping the REAP formula as it is. Vote: Unanimous

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP ha	s done and why are these importa	ant to the place you live and the	state?
 Trail systems have been developed in Bettendorf/Muscatine cities Weed park improvements Land acquisition Public land management Property taxes paid 	 Environmental education Invasive species removal Created environmental education programs Funds staff to take care of nature center, exhibits, etc. Trail systems Preserve natural areas 	Historical Resource Development- REAP money helped restore historic Pine Creek Grist Mill	 Water quality projects-works well with all 99 counties Soil and water enhancement Permeable pavement projects Provides a lot of supplemental opportunities Projects matched with additional funds Water quality improvement and nutrient reduction Quantify phosphorus reductions-annual report makes its way to legislature Promotion of long-term sustainable agricultural opportunities Addressing water quality impairments and opportunities Education addresses ag contributions to degradation Promotion of urban and rural partnerships Roadside vegetation has helped Scott and Muscatine Conservation-equipment, seeding, etc.
<u> </u>	of REAP projects in your communit	:y?	1
Negative: ■ Not enough trail funding			Negative: Lack of support-Leopold Center Need to support local communities and farms

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Vision for next 5 years: changes	or eliminations?		 Concerns-farming practices and manure management WQ initiative should be non-negotiable-not voluntary
 Acquire functional habitats Lost grove needs signs Urban trout signs Fully fund REAP out of IWILL if % cent passes in future IWILL trust fund can't be touched for anything but what is in legislation Extend REAP sunset date Write a trail grant from Nichols to Muscatine to Davenport then across bridge to Illinois Cities or counties must have a trail plan in place Need to find a way to measure and report success of trails (tie message to economic development) Trails coordinator in place to do events with trails % sales tax increase for IWILL 	Increase CEP Don't sunset REAP Fully fund REAP Increase funding significantly for environmental education		 Mitigate and adapt for climate change Funding for combating invasive species Use roadsides and trails for corridors to nature Explore opportunities for streambank stabilization Refinement for unified process for water quality assessments Educate more about REAP Continue to develop and promote WQ assessment process More cooperation between agriculture and conservation-leg would lead the charge

Region 10: Oxford (Benton, Iowa, Johnson, Jones, Linn, Washington)

Attendance: 54 Chair: Dick Heft Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress recommends removing the sunset for REAP. Vote: Unanimous
- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends increasing the program authorization to \$40 Million to account for inflation for the past 30 years. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress supports IWILL with the approved allocations. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends that the REAP is kept unchanged. Vote: Unanimous
- 5. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP. Vote: Unanimous

Small Group Responses:

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP ha	s done and why are these import	ant to the place you live and the	state?
 Match \$ for projects Base natural areas 	 Competitive grants (ex. take a kid outside) used curriculum, materials and training workshops. Dedicated funding for every county, as well. 	 Preservation & Interpretation (need to know what they are seeing) Get the experience of visiting historical sites Draws tourism Historic sites are often near tied to outdoor recreation 	 Properties purchased-Public use Restoration/habitat improvement Urban Conservation Roadside vegetation Watershed management Pollinators Trails Health/Economy
Positive and negative impacts o	f REAP projects in your communi	ty?	
Positive: Promote opportunities for people enjoy the outdoors Community icons & draw Bike Trails Recreation variety Basic outdoor skills Making lowa attractive to retain our educated young people Negative: Ease to find areas Failure to promote	 By educating the people in the community, it will inspire more participation in conservation. It will also teach the next generation about REAP and conservation. Competitive grants can discourage project applicants over time. 	Negative: When there isn't enough funding for all worthy projects Some might say that preservation impedes development Misunderstanding of why public \$ money is spent on this	Positive: Bio sensitive areas - streams Rare species Price Creek Floodplain restoration Access points on rivers Trails
Vision for next 5 years: changes	or eliminations?		
 Full funding Fund IWILL – People have spoken Serve the people – Iowa Leg. Comprehensive water quality Keep formula the same Natural Resource Enhancement emphasis 	 REAP can improve by reaching more young people in the publicschool systems. Also, by building more green buildings such as schools REAP can educate students. 	More funding	 Fully FUND! Iowa water & Land Legacy Fund Can deposit 5 cents to REAP

Region 11: West Des Moines (Boone, Dallas, Jasper, Marion, Polk, Story, Warren)

Attendance: 40 Chair: Cindy Valin Approved Motions:

1. This REAP Assembly recommends that the 2020 REAP Congress recommends reauthorizing REAP. Vote: Unanimous

- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends maintaining the REAP formula. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP at \$20 Million annually. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends when NRORTF is passed, REAP should also be fully funded. Vote: Unanimous
- 5. This REAP Assembly recommends that the 2020 REAP Congress supports raising the sales tax at least ¾ of one

- cent to fully fund NRORTF. Vote: Unanimous
- 6. This REAP Assembly recommends that the 2020 REAP Congress recommends forming four city categories with input from smaller towns. Vote: Unanimous
- 7. This REAP Assembly recommends that the 2020 REAP Congress supports the NRORTF formula as originally passed in Iowa Code Ch. 461. Vote: Unanimous
- 8. This REAP Assembly recommends that the 2020 REAP Congress recommends that the DNR works with County Conservation Boards to identify environmentally sensitive areas of the state. Vote: Unanimous

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP ha	s done and why are these importa	ant to the place you live and the s	tate?
 Provide open spaces such as multi-use rec trail, connections, water trails, wildlife corridor Community beautification - community building Quality of life Connects nature and public health Economic development Equal opportunity for all communities Workforce development Young professionals 	 Deeper and more effective interpretation of natural resources and related issues Supporting the county conservation board system to leverage other funds 	 Jordan House Bennett School-1 room schoolhouse 	 Riparian buffer strips Land acquisition (remnant prairies and rare and unique features) LRTF Native vegetation in roadside Cost share in every county Complemented by education Workforce development for quality of life Health benefits (mental and physical) of outdoor recreation
Positive and negative impacts o Positive: Helps leverage other funds Negative: Lack of funding Competition against small/medium communities City size funding formula Unreliable funding sources	f REAP projects in your communit Positive: Getting family and youth outdoors Improving outdoor safety Preserve and protect critical land habitat Negative: It is hard to know specifically what REAP directly creates as outcomes because multiple \$ sources are combined in projects-impacts are attributed to non-REAP funded projects	 Acquire property around Jordan House for city park Cataloging archives-new facilities 	Positive: Synergies: T.EL.C. project, steam restoration, stormwater, recreation, conservation Seed money of leveraged \$2 million for boathouse in Des Moines wouldn't have happened without REAP Easter Lake and Badger Creek work that has been done to improve water quality Big Creek Lake watershed Madrid bird-friendly parkhelping meet criteria for bird friendly lowa community Negative: Challenge to keep up with changing land use in watersheds

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
 Re-authorize REAP Sunset clause removed Make permanent Fully fund IWILL Protect vulnerable lands through acquisition 	 A comprehensive review/study of REAP conservation ed in lowa: benefits/outcomes, goals, significant changes impacts of state infrastructure/funding changes on REAP cons ed Impact of funds-# of children engaging with outdoors/natural resources 	 Create a vision for what is important to preserve (structures, collections) Do an inventory- history can get lost (ex. Pioneer cemetery) Darling house in Des Moines 	 Holistic-address water quality issues in addition to nutrients Don't lose what we have achieved Invest money locally-ROI Remove sunset and fully fund Maintain existing formula

Region 12: Carroll (Audubon, Carroll, Crawford, Greene, Guthrie, Sac)

Attendance: 24 Chair: Jack Wardell Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress recommends extending REAP language for at least 15 years. Vote: Unanimous
- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP at \$20 Million. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress recommends that the formula not be changed and no restrictions on how the money is spent. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends that IWILL is passed in addition to REAP. Vote: Unanimous

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP ha	s done and why are these importa	ant to the place you live and the	state?
Trails, cities, state parks • improved access on many levels	 Annual Winter Solstice weekend for educators at Springbrook Springbook closed? Why? Is it held somewhere else? Nature centers & similar facilities Educational materials & kiosks 		 REAP for conservation Land acquisition/public use/habitat Soil and Water Conservation District funding (water quality, native species plantings, etc.) T&E Habitat
Positive and negative impacts o	f REAP projects in your communit	:y?	
No funding for MaintenanceLand AcquisitionMore Public Hunting	Educational displaysNot enough \$\$		Wildlife HabitatQuality of lifeEconomic Development
Vision for next 5 years: changes	or eliminations?		
 Additional funding for Maintenance More Trails More FUNDING 	 Needs to reach public (boards, schools) as to what is available Improve contacts 		Funding (IWILL)No change to formula

Region 13: Shenandoah (Fremont, Mill, Montgomery, Page)

Attendance: 11 Chair: Rebecca Castle Approved Motions:

- 1. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP at \$20 Million. Vote: Unanimous
- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends keeping the formula intact as per the original legislation. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress supports an increase in the sales tax which will in turn fully fund REAP. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends eliminating the sunset or extending for another 20-25 years of REAP. Vote: Unanimous

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP has	s done and why are these importa	ant to the place you live and the s	state?
 3.4 billion in recreation business to lowa Allowing more opportunities to enjoy outdoor recreation Wabash TRACE paid for by REAP money, depot Admiral Trail Depot Trail Shen Historical Museum Property acquisition for hunting/fishing grounds as well as habitat Waubonsie State Park improvements This area is predominantly natural with small cities-if we could capitalize on our natural areas it could help the area's economy Outdoor recreation important part of health and wellness 	 Conservation education trailer-partnering with hungry campus alliance and Pott SWCD Stream trailer and rainfall simulator Hosting conservation education days with local schools Landscape displays and wellhead protection displays Support of local naturalist programs-outdoor classrooms 	 Archaeological assessment in Loess Hills through state Archaeologist Wabash depot Rev Todd House Preserving, interpreting and cataloging remnant historic fabric-education leads to appreciation, preservation can lead to economic benefits through tourism 	Conservation practices applied to the land-terraces, windbreaks, native prairie plantings
	f REAP projects in your communit		T =
Positive: Help with improvements to parks and watershed Education experiences Hunting/fishing opportunities Negative: Too competitive-not enough funding Funding needs that don't quite fit \$ opportunity Vision for next 5 years: changes	Positive: Helps bring kids to outdoors Connects people to nature Promotes environmental awareness Builds community involvement Negative: Not enough funding	Positive: • Structural improvement-curb appeal and mothballing • Matching funds-able to leverage other funds • Inspire other projects to apply Negative: • Not enough money • Public isn't educated about grant requirements	Positive: • Funding source for conservation practices that might not otherwise get funded

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
 Need more public land access Need more river access points Put some of those fish hatchery ponds/holding areas in this area Need a designated water trail Increase other unusual recreation like ATV/UTV trails/parks, a pump track Shooting range needed 	 Funding should increase from \$350,000 or be a percent of the pie Devote a % of funding to rural or urban-don't have small communities with fewer resources competing with large cities/towns Look at sustainable conservation ed funding for county naturalist or other local conservation educators 	 REAP should be fully funded Historic tax credits/other funding sources have changed- maybe look at changes as they may be relevant Increase education about the program and requirements 	 Continuing conservation practices: terraces, windbreaks, native prairie plantings Additional emphasis on water quality Do more of the same

Region 14: Afton (Adair, Adams, Clarke, Decatur, Madison, Ringgold, Taylor, Union)

Attendance: 22

Chair: Kate Zimmerman Approved Motions:

1. This REAP Assembly recommends that the 2020 REAP Congress recommends eliminating the sunset clause.

Vote: Unanimous

- 2. This REAP Assembly recommends that the 2020 REAP Congress recommends fully funding REAP at \$20 Million. Vote: Unanimous
- 3. This REAP Assembly recommends that the 2020 REAP Congress supports funding IWILL in addition to REAP or conjunction. Vote: Unanimous
- 4. This REAP Assembly recommends that the 2020 REAP Congress recommends keeping the REAP formula as is. Vote: Unanimous

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
Most significant things REAP has	s done and why are these import	ant to the place you live and the s	tate?
 Used as matching funds to complete project - \$ goes further REAP needed because other funding sources are being cut - Go to funding source Broad use of funds - including new projects and maintenance Put a lot of acres into public ownership Allow parks to grow and modernize with public demand Invest in Resources and Development that brings in revenues - tourism \$ People like nice things - brings people to 	More \$\$ for conservation education	 Most significant things REAP has done for Historic preservation Ties to education Ties to tourism 	 Project Coordinators help carry out the projects Parks, lakes, cabins Tourist

Outdoor Recreation	Conservation Education	Historic Preservation	Natural Resources Conservation
communities if they have nice places To recreate with nice amenities REAP allows CLB's to grow vs just maintaining status quo	f REAP projects in your communit More applications in this region		
cabins, shower houses, campgrounds, check in stations Trail projects - McKinley Park Matching funds for Fish Habitat projects Union County, Cedar Park, Grovesback wildlife, 3- mile lake			
Vision for next 5 years: changes	or eliminations?		
	 Target education at a younger ages - targeted fund Interpretive signs 	 Plus - separate categories grants matching funds 	 Add more money to REAP There is more demand than there are funds, which shows the success of REAP There are NO bad projects

Region 15: Oskaloosa (Davis, Jefferson, Keokuk, Mahaska, Van Buren, Wapello)
