

**IOWA DEPARTMENT OF NATURAL RESOURCES
ENVIRONMENTAL SERVICES DIVISION
ANIMAL FEEDING OPERATIONS PROGRAM**

PETITION FOR WAIVER FROM WELL SEPARATION RULES

Pursuant to 7 Iowa Administrative Code Chapter 2504, Waivers from Administrative Rules, a petitioner must provide comprehensive justification of a proposed request for a waiver to an administrative rule as adopted by the Department of Natural Resources (DNR).

This form will assist you in providing all pertinent information that is necessary for the DNR to grant a waiver. The form must be submitted to the DNR and must contain an adequate amount of factual and concise information. The obligation rests with the petitioner to provide convincing evidence to justify the granting of a waiver. You may provide additional information or attach additional pages if needed. The DNR reserves the right to require additional information to further support request for a waiver. While the DNR is required to consider a request for waiver, it is not required to grant a waiver even if all requested information is provided.

Petitions will be evaluated by the DNR. The DNR reserves the right to place any condition on the waiver. If information is not inclusive, concise, or does not adhere to the justifications and/or proof the petitioner has submitted, the waiver may be denied. Upon review, the DNR will grant or deny the waiver in writing.

The petition will be reviewed by DNR staff to evaluate whether the proposed construction meets the standard of "substantial equivalent performance to the separation distance." Specifically, the DNR will evaluate whether or not the private well is acting or has the potential to act as a direct conduit to an aquifer.

Use of this form is not required, but your request will be automatically denied if you fail to submit all the information described in this form.

All petitions for a waiver should be completed, signed and submitted to the DNR. One complete copy shall be submitted to the Office of the Director: 6200 Park Ave Ste 200, Des Moines IA 50321. A second complete copy shall be submitted to the Iowa DNR, AFO Program, ATTN: AFO Engineer Iowa DNR - FO3, 1900 N Grand, Gateway North Mall, Spencer IA 53101. A third copy must be submitted to the appropriate Field Office, see link to addresses below.

For the addresses or contact information for the appropriate Department Field Office: www.iowadnr.gov/fieldoffice.

For animal feeding operations facilities requiring a Construction Permit, this petition should be submitted at the time of application.

PETITION FOR WAIVER FROM WELL SEPARATION RULES IAC 567-65

Petitioner Information

Name: _____
Address: _____
City: _____ State: _____ Zip: _____
Telephone: _____ Email: _____

Facility Information

Name: _____
Address: _____
City: _____ State: _____ Zip: _____
Telephone: _____ 5-digit AFO Facility Number if known: _____
Legal Description (¼ ¼, ¼, Section, Tier, Range, County):

_____ ¼ ¼ _____ Section _____ Tier _____ Range _____ County

Basic Information: The items in **bold and starred** are required for evaluation of the waiver request. Items in plain print will make the evaluation process easier and faster.

1. ***Location of well(s) and existing and proposed animal feeding operation structures for which separation distances apply:**
 - a. ***Include a map or drawing clearly showing the location(s) of all wells and proposed structures that are to be considered for this waiver. Include elevation lines or overlay a topographic map.**
 - b. ***Clearly label these features using names and numbers consistent with all relevant documentation.**
 - c. ***Indicate distances between relevant items on the map. Include a scale and north arrow.**
2. ***Well construction details:**
 - a. Provide a drillers log or reference online information: Check the Iowa DNR’s GEOSAM database (<http://ifis.iowafloodcenter.org/ifis/more/geosam/>) to determine if well construction details are available online. Private well tracking numbers may also provide staff with useful details.
 - b. ***Well depth:** _____
 - c. Static Pumping Level and Pumping Water Level: _____
 - d. Description of subsurface materials (for example, clay 0-10 ft, sand 10-15 ft., etc.): _____
 - e. ***Year constructed:** _____
 - f. ***Casing diameter:** _____
 - g. ***Grouting material and description of condition:** _____
 - h. Description of any well-head protection such as a concrete pad, berm, or elevation of the well compared to possible contamination sources: _____

3. Water use description:

How is the well-water used (livestock watering, human consumption, irrigation, etc.)? _____

Pumping rate: _____

Water use permit number if more than 25,000 gallons per day are withdrawn: _____

4. ***Recent (less than 6 months) water analysis for Nitrate - N from a certified laboratory.** Please ask the laboratory for proper sampling and shipping requirements prior to sampling (specific bottles may be required). A copy of the lab report should be included with the waiver petition. The County Sanitarian may be contacted for assistance.

Petitioner's Justification:

1. Is this petition submitted in conjunction with a construction permit application? Yes No
2. Describe which separation distances are not going to be met.
3. Describe why the construction is necessary and how it will lead to additional water protection.
4. Describe how conditions of the site minimize potential contamination of the well(s) in question.
5. Describe in detail undue hardship to the producer and/or operation if a waiver were not granted.
6. Are there any public agencies, political subdivisions of the state or federal government, person or entity which may be affected by the granting of the proposed waiver? Yes No
If yes, you must provide the name(s); address (es), telephone number(s), and other relevant contact information.
7. If the waiver is granted, would it pose a threat to any person's rights? If so, how?

The DNR shall grant or deny a petition for a waiver with 120 days of the receipt of the petition. Failure of the DNR to grant or deny a petition within the required time period shall be deemed a denial of that petition by the DNR. A waiver is void if the material facts are not true or if facts have been withheld. The DNR reserves the right to cancel a waiver at any time if the DNR finds that the facts as stated in the request are not true, material facts have been withheld, the alternative means of compliance provided in the waiver have failed to achieve the objectives of the statute, or the requester has failed to comply with the conditions of the waiver. By signing this petition, you certify that all information listed on this petition and the attached additional information is factual and accurate.
