

# Iowa Certified Groundwater Professional Request for Approval for Continuing Education Hours

Continuing education for Certified Groundwater Professionals must be in the areas relating to underground storage tank contamination assessment and corrective action activities (Iowa Administrative Code 567- 134). If course topics meet the above requirements, Iowa DNR will award 1 hour of continuing education for every hour of the course. Please use the form below to demonstrate how a specific course meets this standard.

Conference/Seminar Title: \_\_\_\_\_

Date & Place Held: \_\_\_\_\_

If online, link to registration/description: \_\_\_\_\_

Tanks Discussed

Oxygenates

Fractured Bedrock Systems

Modeling

Vapor Intrusion

- Soil Gas
- Groundwater Vapor
- Indoor Air

Lithology/Hydrogeology/Geology

On-Site Health & Safety

Institutional Controls/Covenants

Petroleum Remediation

- Soil Vapor Extraction
- Dual Phase Extraction
- Oxygen Releasing Compounds
- Air Sparging
- Heat Treatment
- Over-Excavation

Drilling Methods

Analytical Testing

Site Characterization (ASTM)

Sampling Techniques

- Bioassay
- Direct Push
- Sonic Drilling
- Rotary/Hollow Stem

Comments/Rationale:

For DNR Use:
