Section 2. Waste Type

Does the material to be land applied contain free liquids¹? Yes No

If the material is a sludge, is it generated by a:

- Commercial or industrial wastewater treatment facility
- Water supply treatment facility
- Air pollution control facility
- Other; Please elaborate: _____

Expected weight (tons) of solid waste to be land applied per year by the facility: _____

¹ The presence of free liquids is determined by the paint filter test. The paint filter test is done by placing a 100-milliliter or 100-gram representative sample of the material into a standard mesh number 60 (fine mesh size) conical paint filter for five minutes. Any free liquid visible below the funnel indicates sample failure.

Section 3. Permit Application Checklist

The following items must be attached. If the permit is being renewed and there is no change from what was submitted with previous applications, the Doc Id# may be listed in lieu of resubmitting the document. Analytical results and a cost closure estimate (for facilities storing material at the application sites) must be submitted with each renewal. Checking the appropriate boxes below certifies that the documents submitted in conjunction with this application form are complete and in compliance with the applicable chapters of Iowa Administrative Code. If an application is found by the DNR to be incomplete, it may be denied and returned to the applicant.
