

Petition for a Flood Plain Determination or Flood Plain Declaratory Order

For confinement feeding operations as required by 567 Iowa Administrative Code
(IAC) 65.8(3) "d" and "e" and 65.9(4) "b"

This form can be filled out and submitted online through PERMT: <https://programs.iowadnr.gov/permt>.

The purpose of this petition is to ask the DNR to determine if the proposed location is on a "one hundred year flood plain", as defined in 567 IAC 65.1. "One hundred year flood plain" means the land adjacent to a major water source, if there is at least a 1 percent chance that the land will be inundated in any one year.

An owner must file a petition for a Flood Plain Determination or a Declaratory Order if both of the following apply:

- 1) when planning to build, expand or modify a confinement feeding operation; and
- 2) when the proposed location is on alluvial soils or alluvial aquifer as determined by using the AFO Siting Atlas at <http://www.iowadnr.gov/Environmental-Protection/Land-Quality/Animal-Feeding-Operations/Mapping/Proper-AFO-Siting>.

1. Calculate animal units by using the total number of head proposed after expansion in the chart below. The total proposed head should include any other confinement within 2,500 feet if the combined AU is greater than 1,000.

Animal Type	Confinement Buildings		
	Total No. Head Proposed after Expansion	x Multiplier	= AUC
Cattle (other than mature dairy cows) which includes beef cattle, steers, cow-calf pairs, dairy heifers, veal calves or immature dairy cows		1.0
