

Join us for the 4th session of the Pollution Prevention Services ISO 14001 Environmental Management System Interactive Webinar Series

On Wednesday, June 25, 2025, Pollution Prevention Services and the Iowa DNR are hosting the “ISO 14001 Environmental Management System Training: EMS Corrective Actions & An EMS Professional Q&A Panel” webinar, led by Jess Nicholson of Burns & McDonnell.

Registration link: <https://us02web.zoom.us/meeting/register/acXBSpn9TpeseMcTdVFUnQ>

This fourth webinar will focus on how to address findings and nonconformities from your EMS audit. What is a nonconformity? What are the root causes? How do we determine corrective actions? How do we continually improve? Additionally, we will have three industry professionals with seasoned experiences within their organization’s EMS programs. They will provide short intros, and then open the floor for EMS discussion. Come with questions! From starting an EMS to maintaining a mature EMS program, they can provide their real-world examples.

The webinar will be approximately two hours in length will include a combination of lecture, participation, and resources to facilitate discussion and encourage you to gain a practical understanding of the following material:

- ▶ Brief Review of Webinar 1: Environmental Aspects and Impacts, Defining Significance
- ▶ Brief Review of Webinar 2: Establishing Environmental Objectives
- ▶ Brief Review of Webinar 3: Auditing Your Environmental Management System
- ▶ Review of Nonconformities
- ▶ Identifying Root Causes
- ▶ Corrective Action Process
 - ▶ Finding/Nonconformity
 - ▶ Root Cause
 - ▶ Corrective Action
 - ▶ Verification
- ▶ Panel Discussion
- ▶ Summary

This session is welcome to all participants, but is focused toward those who already have familiarity with the ISO 14001 Standard. For a more detailed overview of the webinar, please see the attached agenda.
