This aerial map illustrates the Wapsi River area in Iowa, highlighting three specific study sites marked with purple dots and numbered 1 through 3. The map shows a network of roads, including US 30, US 61, and various state and local streets. Water bodies, including the Wapsi River and several wetlands, are clearly visible. The sites are labeled as follows:

- 1- Barber Creek and wetlands:** Located near Barber Creek WMA, this site is situated at the intersection of 278 ST and 247 AVE.
- 2- Wapsi backwaters, fisherman's access:** Located near Wapsi WMA, this site is situated at the intersection of 270 ST and 270 AVE.
- 3- Wapsi bottoms near old Fairyland:** Located near Scott County Park, this site is situated at the intersection of 315 ST and 195 AVE.

The map also shows other geographical features such as the Wapsi River, Barber Creek, and several wetlands. A north arrow is present in the top right corner, and a scale bar is located in the bottom left corner.
