RE: State of Iowa Designation Recommendations for the 2024 Annual Secondary SO<sub>2</sub> National Ambient Air Quality Standard

**Dear Administrator Macy:** 

On December 11, 2024, the U.S. Environmental Protection Agency (EPA) promulgated a revision to the national ambient air quality standards (NAAQS) for sulfur dioxide ( $SO_2$ ). In that action, EPA strengthened the secondary NAAQS to protect public welfare by establishing an annual  $SO_2$  standard of 10 parts per billion.

Within one year of NAAQS promulgation, section 107(d)(1)(A) of the federal Clean Air Act requires the Governor of each state to submit a list to EPA recommending a designation of attainment, nonattainment, or unclassifiable for each area in the state.

A review of Iowa's  $2022-2024 \text{ SO}_2$  monitoring data in the enclosed document confirms that all eligible sites measured values that meet the annual secondary  $SO_2$  standard. I therefore recommend, as shown in the enclosure, an attainment/unclassifiable designation for each of Iowa's 99 counties for the 2024 annual secondary  $SO_2$  NAAQS.

Please do not hesitate to contact my office with any questions regarding this topic.

Sincerely

Kim Reynolds

Governor of Iowa
