1 Water Body Name	Competine Creek
2 Segment Description	Confluence with unnamed tributary to confluence with unnamed tributary
3 Segment Length (mi)	9.3
4 Drainage Area (sq. mi.)	36.8
5 Segment Start Latitude, Longitude (DD)	41.04708, -92.13722
6 Segment End Latitude, Longitude (DD)	41.12335, -92.22004
7 Route of Flow (Next Downstream Adopted Designated Use)	Competine Creek (A2, proposed, BWW2, existing) to Competine Creek (A2, BWW2)
8 NPDES Facility and Permit Number (If Applicable)	Martinsburg, City of STP (5452001)
9 Sample Site ID(s)	1237-4, 1237-5
10 Segment County Name(s)	Jefferson/Wapello
11 Field Work Date(s)	7/19/2016

12 Aquatic Life Use Attainability Analysis - Conclusion

Recommended Highest Attainable Use: Aquatic Life Use	N/A
---	-----

13 Recreational Use Attainability Analysis - Conclusion

Recommended Highest Attainable Use: Recreational Use	A2
40 CFR 131.10(g)(2) (Flow)	The natural low flow conditions and water levels of the stream segment prevent the attainment of an A1 recreational use (see Site Observations Table). An A1 designation requires the ability for full body immersion. Therefore, the highest attainable recreational use is A2.

14 Flow

Field Work Date	Description
7/19/2016	USGS stream gage 05473400 data for the area indicated stream flows were normal at the time of assessment.
