

SHELBY COUNTY REAP COMMITTEE FIVE-YEAR PLAN

The Shelby County REAP Committee consisting of representatives from the conservation board, roadside management, private conservation groups, historical society, environmental education, NRCS, and cities is committed to coordinating REAP activities in the county for the next five years.

Some possible projects the committee representatives would like to see implemented or continued in the next 5 years are:

- Native prairie restoration in right of way, public, and private lands.
- Buffer strips along waterways
- Country schoolhouse restoration
- Park improvements
- Walking/ biking trails
- Other historical projects
- Environmental education programs

The committee members all agree that REAP should be fully funded and supports the overall vision of the statewide REAP plan. We also are committed to protect, maintain, and inventory **all** of Shelby County's natural and historical resources.
