

PUBLIC NOTICE

The Iowa Department of Natural Resources (DNR) is proposing to issue a modified Title V Operating Permit to Loparex, LLC. This facility is located at 2000 Industrial Park Road, Iowa City, Iowa 52240. DNR is currently reviewing a permit application submitted by Loparex, LLC to modify operations at their existing paper coated and laminated packaging plant.

Loparex, LLC is required to obtain a significant Title V Operating Permit modification pursuant to 567 Iowa Administrative Code (IAC) 22.113. This modification will result in changes in the facility's annual potential to emit the following air pollutants: No change in potential emissions.

Based on the information provided in the application for Title V Operating Permit modification, the DNR has made an initial determination that the facility meets all the applicable criteria for the issuance of a significant permit modification specified in 567 IAC 22.107 and 567 IAC 22.113.

A complete record of the permit modification review, including the application and the draft permit, is available for public inspection Monday-Friday, 8:00 a.m. - 4:30 p.m., at the DNR address shown above.

The public comment period for the draft permit will run from October 15, 2020 through November 14, 2020. During the public comment period, anyone may submit written comments on the permit. Mail signed comments to Chris Kjellmark at the DNR address shown above. The beginning date of this public comment period also serves as the beginning of the U.S. Environmental Protection Agency's (EPA) 45-day review period, provided the EPA does not seek a separate review period.

Written requests for a public hearing concerning the permit may also be submitted during the comment period. Any hearing request must state the person's interest in the subject matter, and the nature of the issues proposed to be raised at the hearing. DNR will hold a public hearing upon finding, on the basis of requests, a significant degree of relevant public interest in a draft permit. Mail hearing requests to Chris Kjellmark at the DNR address shown above.

DNR will keep a record of the issues raised during the public participation process, and will prepare written responses to all comments received. The comments and responses will be compiled into a responsiveness summary document. After the close of the public comment period, DNR will make a final decision on the application for permit modification. The responsiveness summary and the final permit will be available to the public upon request.
