

SRF Environmental Review Checklist

The following checklist outlines the information needed to start the SRF Environmental Review (ER) Services. Please provide the following to: srf-iup@dnr.iowa.gov

Applicant Name: _____

✓ Other federal funding sources that will be used for the proposed project. (Check ALL that apply)

No other federal funding sources are planned.

CDBG

- What amount was requested? \$ _____
- Has the funding amount been awarded? Yes No
- Who is preparing the environmental review documents for this funding source? Please provide contact information. _____

USDA-RD

- What amount was requested? \$ _____
- Has the funding amount been awarded? Yes No
- Who is preparing the environmental review documents for this funding source? Please provide contact information. _____

Other: Please specify program _____

- What amount was requested? \$ _____
- Has the funding amount been awarded? Yes No
- Who is preparing the environmental review documents for this funding source? Please provide contact information. _____

✓ The anticipated construction start date for the proposed project. (Check ALL that apply)

The anticipated construction start date on the current IUP application is correct.

The anticipated construction start date has changed from the date listed in the IUP application.

- What is the new anticipated construction start date for the project? _____

The proposed project schedule is dependent on other funding source(s).

- Will the construction start date be delayed if other funding is not awarded? Yes No

The proposed project schedule is dependent on an existing compliance schedule.

- What is the construction start date listed in the compliance schedule? _____

✓ A description of the current project scope including: what is proposed to be constructed, specific construction methods that will be used, estimated dimensions (length, width, depth) of excavated areas and the proposed construction schedule if construction will be phased.

- ✓ Indicate if any of the following ancillary impacts will result from the proposed project. (Check ALL that apply)
 - Abandonment or demolition (partial or entire) of existing building/structures
 - Borrow pits
 - Staging areas for equipment and materials
 - Temporary and/or permanent easement areas
 - Pavement replacement (street, driveway, sidewalk)
 - New access for roads/utility lines

- ✓ A recent aerial map with the marked boundaries of the project area. The map should also include labeled location(s) of all proposed construction boundaries (include any ancillary impacts listed above as applicable). If a specific area has yet to be defined, please mark a larger area that will include the final project area.
 - A copy of the project area map is included.
 - What is the approximate size of the total project area? _____ acres
 - How much of the total project area will be impacted by ground-disturbing (excavation, grading, tree removal, etc.) construction activity? _____ acres

- ✓ Photos with a descriptive caption (include location & direction) of the project area showing current land use and habitat.
 - Photos with captions are included (digital files are preferred).

- ✓ Indicate which of the following impacts are anticipated as a result of the proposed project. (Check ALL that apply)
 - Demolition, abandonment or rehabilitation of any building/structure over 50 years old. Picture(s) showing the interior and exterior façade of the building/structure should be provided. Provide the following information for each building/structure over 50 years old that will be impacted.
 - What year was the building/structure originally constructed? If the exact year is unknown, provide an estimate. _____
 - What material(s) is the building/structure made of? _____
 - Have any additions or substantial alterations to the building/structure occurred? If so, describe what was done and when. _____

 - Brick sewers or street surfaces will be disturbed by construction activity.
 - Has a historic context (including Iowa Site Inventory Forms) been prepared for the brick sewers/street surfaces? Yes No
 - Describe any planned steps to minimize adverse effect to the brick sewers/streets.

 - Existing prairie will be disturbed by construction activity.
 - How much prairie will be disturbed? _____ acres
 - Has a floral study been conducted of the prairie area? Yes No
 - Describe any planned steps to minimize adverse effect to the prairie.

 - Trees (greater than 4" diameter breast height) will be removed.
 - Will tree removal occur between October 1 and March 31 to avoid impacting federally threatened or endangered bat species during the summer maternity period? Yes No

- Wetlands will be disturbed by construction activity.
- How much of the wetland area will be permanently impacted? _____ acres
 - Has a Joint Application been submitted to determine permit requirements? Yes No

- Planned stream/creek crossings.
- What construction method(s) are planned for the crossing? _____
 - Will excavation activity take place to the bed, bank of the stream/creek? Yes No
 - Has a Joint Application been submitted to determine permit requirements? Yes No

- Planned work within a mapped 100-year flood plain.
- What construction activity is planned within the flood plain? _____
 - If ground disturbance will occur, will pre-construction contours be restored after construction activity is completed? Yes No
 - Has a Joint Application been submitted to determine permit requirements? Yes No

- Planned work within state or federal owned and/or managed land.
- What construction activity is planned within state/federal land? _____
 - Has a Joint Application been submitted to determine permit requirements? Yes No

- Farmland will be permanently converted to non-agricultural uses.
- What is the total size of the farm unit(s) that contains the project area? _____ acres
 - How much of the project area has been farmed (managed for a scheduled harvest or timber activity) more than 5 of the last 10 years? _____ acres
 - How much of the project area will be converted from agricultural use as a result of the proposed project? _____ acres

✓ Landowner permission is required for archaeological survey on private property, if needed. *Please note that archaeological survey will not begin until this permission is obtained.

- Yes, landowner permission has been obtained (documentation is provided).
- Does the landowner(s) have any specific requests or requirements for archeological work to be conducted (for example, before/after harvest)? _____ acres

- No, landowner permission has not been obtained at this time.
- When is landowner permission anticipated to be obtained? _____
