Welcome to Nine Eagles State Park, a hidden secret of Decatur County. Whether you are here to fish, camp, swim or just relax, we hope you enjoy your stay.

**PARK POINTS OF INTEREST/THINGS TO DO**
Nine Eagles has a fishing jetty located on the 64-acre lake that provides great shoreline access. Anglers can try their luck fishing for bluegill, crappie, largemouth bass and channel catfish. The boat ramp is located by the beach area for convenient lake access. There are five fishing docks highlighted on the map found on the reverse side.

Nine Eagles has playgrounds located by the campgrounds. There is one playground located on the swimming beach. There are several picnic areas through out the timbered park. There are several electric sites and non-electric campsites with modern shower/restrooms. Three open shelters are available for reservation.

Nine Eagles has a new seasonal family cabin open for reservations. It is a one-bedroom cabin with heat and A/C.

The park has a three-mile hiking trail that goes around the lake and several other trails connecting to the campgrounds. If you plan to walk the entire trail, take water and insect repellant. The trail takes you through rugged, hilly mature hardwood timber and small remnants of native prairie. The keen observer will likely see a variety of wildlife species that take refuge in these habitats. The trails are grass and crushed rock and are open to hikers and mountain bikers. During the winter months, there are seven miles of multi-use trails for snowmobiles and cross-country skiers. The equestrian trails total seven miles through rugged timber and small prairie remnants. There are seven non-electric campsites with water and hitching rails. There is day-use parking in the center of the equestrian area. A small shelter house is available for use when not reserved.

**SPECIAL PARK RULES**
