

CAMPFIRE TIPS

- Build you fire in a designated fire ring.
- Make sure you are aware of any seasonal restrictions (burn bans).
- Buy local firewood if possible to prevent the spread of unwanted forest pests in firewood. Burn it where you buy it.
- Clear the immediate area surrounding your campfire site of debris (8-10 ft radius).
- Pitch your tent far enough away from the campfire site to prevent ignition from heat or sparks.
- Never leave a campfire unattended.
- Keep water handy and have a small shovel for throwing dirt on the fire if it gets out of control.
- Make sure your fire is totally extinguished before breaking camp.
- Teach your children to respect the fire.
