Solid Waste Workshops

Workshop #2: Transfer Haul Compliance Options and Impacts

June 1, 2005

This contract was prepared with funds from the Solid Waste Alternatives Program. However, any opinions, findings, conclusions, or recommendations expressed herein are those of the author(s) and do not necessarily reflect the view of DNR.

WELCOME & OPENING REMARKS

Jeff Myrom, *Iowa Dept. of Natural Resources*

- Overview of Workshop #2 Objectives

WELCOME & OPENING REMARKS

WORKSHOP #2 OBJECTIVES

- Regulatory Overview
 - Continuing to operate a landfill
 - Closing the landfill and opening a transfer station

- Making the Decision
 - Public education, input and consensus
 - Evaluating options for transfer
 - Deciding to close the landfill

WELCOME & OPENING REMARKS

WORKSHOP #2 OBJECTIVES (cont'd)

- **Case Studies**
 - Provide examples of Iowa planning areas that have successfully developed or are in the process of developing transfer stations

- **Transfer Station Economics**
 - Provide information on the cost to develop a transfer station
 - Planning areas can then compare with cost estimate for developing a Subtitle D compliant landfill

- **Project Implementation**
 - Important considerations and steps
